(a) any interest belonging to the Government; or

(b) any right conferred by a notice relating to the onshore pipe-line under section 3D.

(2) Where the Authority proposes to issue a permission in respect of an onshore pipe-line to any person in respect of an onshore pipe-line vested in the Authority by virtue of subsection (1), the Authority may agree with that person, on terms which may include provision for that person to make payments to the Authority, that the permission is to include a statement that subsection (3) applies to the permission.

(4) Unless the Authority considers that there are special circumstances by reason of which the duration of a permission in respect of a controlled pipe-line should be limited, a permission shall provide for its duration to be unlimited subject to the provisions of this Part.

(5) Subsection (6) applies where a works permission in respect of a controlled pipe-line contains a term (in this section referred to as the controlled pipe-line variation term) requiring that —

(a) the capacity of the controlled pipe-line to which it relates or of any part of the controlled pipe-line shall be greater than that proposed in the application for the permission; or

(b) any of the route of the controlled pipe-line shall be different from that so proposed.

(c) provide that the holder may, if those arrangements are not made by the other person within the specified period, elect in the specified manner that —

(i) the controlled pipe-line variation term shall have effect with such modifications as are specified with a view to eliminating the consequences of the representations of the other person; and

(8) In subsection [7], “specified” means specified in the notice.

Modification of controlled pipe-lines

15C. (1) If in the case of a controlled pipe-line it appears to the Authority, on the application of a person other than the owner of the controlled pipe-line that —

(a) the capacity of the controlled pipe-line can and should be increased by modifying apparatus and works associated with the controlled pipe-line; or

(b) the controlled pipe-line can and should be modified by installing in it a junction through which another pipe-line may be connected to the controlled pipe-line,

(e) authorise the owner, if he satisfies the Authority that he has carried out or will carry out the modifications, to recover those sums from the applicant.

(3) References in subsections (1) and (2) to modifications include, in the case of modifications of any apparatus and works, references to changes in, substitutions for and additions to the apparatus and works.

(4) For the purposes of section 3(1), a notice under subsection (1) requiring a person to carry out modifications grants him permission to carry out the modifications, but Schedule 2 does not apply to such a notice.

(5) Notwithstanding the provisions of this section, any pipe-line or system of pipe-lines declared by the Authority pursuant to section 16 to be common carriers are excepted from the operation of this section.

Acquisition of rights to use controlled pipe-lines

15D. (1) Subsections (2) and (3) apply where a person makes an application to the Authority for a notice under this section securing to the applicant a right to convey, by a controlled pipe-line of which he is not the owner, quantities specified in the application of things which are of a kind so specified and which the controlled pipe-line is designed to convey.

(2) The Authority shall —

(a) give notice to the owner of the controlled pipe-line and the applicant that the Authority proposes to consider the application; and

(b) after the expiry of 21 days beginning with the date on which notice under paragraph *(a)* was served, but before considering the application, give them an opportunity of being heard with respect to the application.

(3) Where the Authority is satisfied that, if the Authority served a notice under this section, the controlled pipe-line in question could be operated in accordance with the notice without prejudicing its efficient operation for the purpose of conveying, on behalf of its owner, the quantities of permitted substances which the owner requires or may reasonably be expected to require, the Authority may serve such a notice on the owner and the applicant.

(4) A notice under this section may contain such provisions as the Authority considers appropriate for any of the following purposes —

(a) to secure to the applicant, without prejudicing the efficient operation of the controlled pipe-line for the purpose mentioned in subsection (3), the right to convey by the controlled pipe-line the quantities specified in the application of the things so specified;

(b) to secure that the exercise of the right is not prevented or impeded;

(5) Such a notice may also authorise the owner to recover from the applicant payments by way of consideration for any right mentioned in subsection (4)*(a)* or *(d)* of amounts specified in the notice or determined in accordance with the notice.

(6) Before serving a notice under section 15B(6) on a person other than the holder of the relevant permission, the Authority shall give that person an opportunity to make an application under subsection (1) in respect of the proposed controlled pipe-line to which the permission relates; and subsections (1) to (5) shall have effect for this purpose as if references to a

controlled pipe-line and the owner of it were references to the proposed controlled pipe-line and the proposed owner of it.

(7) Before serving a notice under section 15C(1) on a person other than the owner of the relevant controlled pipe-line, the Authority shall give that person particulars of the modifications which the Authority proposes to specify in the notice and an opportunity to make an application under subsection (1) in respect of the controlled pipe-line; and subsections (1) to (5) shall have effect for this purpose as if references to an controlled pipe-line were references to the controlled pipe-line as it would be with those modifications.

(8) The use of a controlled pipe-line by any person in accordance with a right secured to him by virtue of this section is not a contravention of section 15A; but a person to whom a right is so secured may not assign the right to any other person.

(9) This section does not apply to any pipe-line or system of pipe-lines declared by the Authority pursuant to section 16 to be common carriers, and such pipe-lines are excepted from the operation of this section.

(3) The period referred to in subsection (2) is —

(a) the period of 3 years beginning with the date when the permission is expressed to come into force; or

(b) such longer period beginning with that date as the Authority has, on the application of the holder, specified in a notice served under this paragraph on the holder during the period mentioned in paragraph *(a)*.

(4) For the purposes of subsection (2), the Authority shall disregard the execution of any of the works which the Authority considers should be disregarded for that purpose.

(a) has contravened a term of the permission; or

(b) has contravened any provision of a notice which, under section 15C or 15D, was served on him in his capacity as the owner of the controlled pipe-line (or the proposed owner of the proposed controlled pipe-line) to which the permission relates,

the Authority may serve on the holder a notice stating that the permission is to cease to be in force at a time specified in the notice.

(7) The Authority shall not serve a notice under subsection (6) without first giving the holder of the permission an opportunity to make written representations to him.

(8) The Authority shall not serve a notice under subsection (6) in consequence of a contravention if the Authority considers that —

(a) having regard to the nature and consequences of the contravention and to any previous contravention, it would be unreasonable to terminate the permission in consequence of the contravention; and

(b) the holder has taken adequate steps to prevent similar contraventions in future.

(9) When a permission in respect of a controlled pipe-line ceases to be in force, the Authority shall publish in the *Gazette*, a notice stating that it has ceased to be in force.

Vesting of controlled pipe-lines upon expiry of permission

15F. (1) When a permission in respect of a controlled pipe-line ceases to be in force, the controlled pipe-line to which it relates shall, by virtue of this subsection, be transferred to and shall vest in the Authority free from encumbrances, except that nothing in this subsection prejudices —

(a) any interest belonging to the Government; or

(b) any right conferred by a notice relating to the controlled pipe-line under section 15D.

(2) Where the Authority proposes to issue a permission in respect of a controlled pipe-line to any person in respect of a controlled pipe-line vested in the Authority by virtue of subsection (1), the Authority may agree with that person, on terms which may include provision for that person to make payments to the Authority, that the permission is to include a statement that subsection (3) applies to the permission.

(3) Where a permission in respect of a controlled pipe-line includes such a statement, the controlled pipe-line to which the permission relates shall, by virtue of this subsection and at the time specified in the permission, be transferred to and shall vest in the holder of the permission subject to any interest or right then subsisting in respect of the pipe-line by virtue of subsection (1)(a) or (b).”.
