

**POISONS ACT  
(CHAPTER 114)  
POISONS RULES**

**S 62/1957**  
**Enactment No. 13 of 1956**  
Amended by  
S 102/1979

**REVISED EDITION 2015**

**SUBSIDIARY LEGISLATION**

**POISONS RULES**

ARRANGEMENT OF RULES

Rule

1. Citation.
2. Interpretation.
3. Licences.
4. Form for recording sale of poisons.
5. Conditions of sale of poisons.

LEAD TETRA-ETHYL

6. Special provisions in respect of lead tetra-ethyl.
7. Licences fees.

APPLICATION AND RELAXATION OF PROVISIONS OF ACT

8. Extension of labelling provisions.
9. Limitation of section 6(3) to certain substances.
10. Extension of section 6(3) to supply of poisons otherwise than by sale, including commercial samples.
11. Relaxation of section 7(3) in case of certain medicines.
12. Exemption from provisions relating solely to First Schedule.
13. Complete exemption for certain articles and poisons.

ADDITIONAL RESTRICTIONS ON SALE OF POISONS

14. Additional restriction on certain poisons.

[Subsidiary]

15. Restriction of sales by persons licensed to sell Part II Poisons.
16. Restriction on sale of strychnine.

SUPPLEMENTARY PROVISIONS WITH RESPECT TO  
LABELLING AND CONTAINERS

17. Manner of labelling containers.
18. Labelling of name of poison.
19. Labelling of particulars as to proportion of poison.
20. Indication of character of poison.
21. Special cautions in case of certain substances.
22. Relaxation of certain labelling requirements.
23. Form of containers.

STORAGE AND TRANSPORT

24. Storage of poisons.
25. Transport of poisons.
26. Special provisions with respect to transport of certain poisons in Sixth Schedule.

SPECIAL PROVISIONS WITH RESPECT TO HOSPITALS

27. Supply of medicines to out-patients from certain hospitals etc.
28. Supply of medicines for use in hospitals etc.
29. Storage of poisons in institutions.

COLOURING OF POISONS

30. Manufacture of pharmaceutical preparations.
31. Books, records and orders to be preserved on premises of sale for 2 years.

---

FIRST SCHEDULE	—	SUBSTANCES FALLING WITHIN POISONS LIST TO WHICH SPECIAL RESTRICTIONS APPLY
SECOND SCHEDULE	—	ARTICLES EXEMPTED UNDER RULE 13 FROM PROVISIONS OF ACT AND RULES
THIRD SCHEDULE	—	SUBSTANCES REQUIRED BY RULE 14 TO BE SOLD BY RETAIL ONLY UPON PRESCRIPTION GIVEN BY REGISTERED MEDICAL PRACTITIONER, DENTIST OR VETERINARY SURGEON
FOURTH SCHEDULE	—	STATEMENT OF PARTICULARS AS TO PROPORTION OF POISON IN CERTAIN CASES PERMITTED BY RULE 19(2)(a)
FIFTH SCHEDULE	—	INDICATION OF CHARACTER PRESCRIBED BY RULE 20 FOR PURPOSES OF SECTION 6(2)(c)
SIXTH SCHEDULE	—	SUBSTANCES TO WHICH RULE 26(1) (TRANSPORT) APPLIES
SEVENTH SCHEDULE	—	SUBSTANCES TO WHICH RULE 30(1) (COLOURING) APPLIES
EIGHTH SCHEDULE	—	FORMS
NINTH SECHEDULE	—	FEEES

## SUBSIDIARY LEGISLATION

## Rules made under section 21

## POISONS RULES

*Commencement: 1st July 1957*  
*[S 61/1957]*

**Citation.**

1. These Rules may be cited as the Poisons Rules.

**Interpretation.**

2. (1) In these Rules —

“antimonial poisons” means chlorides of antimony, oxides of antimony, sulphides of antimony, antimonates, antimonites, and organic compounds of antimony;

“arsenical poisons” means halides of arsenic, oxides of arsenic, sulphides of arsenic, arsenates, arsenites, copper acetoarsenites, sodium thio-arsenites and organic compounds of arsenic;

“licensed importer” means an importer licensed under the Act;

“licensed person” means a person licensed under the Act;

“mercurial poisons” means oxides of mercury, nitrates of mercury, mercuric chloride, mercuric ammonium chlorides, mercuric iodide, potassio-mercuric iodides, mercuric oxycyanides, mercuric thiocyanate, organic compounds of mercury.

- (2) In these Rules —

(a) any reference to an alkaloid includes a reference to any salt of that alkaloid, and in a case where the esters of an alkaloid are included in the Poisons List by virtue of the words “its esters”, to any esters of that alkaloid;

(b) any reference to medicines for the internal treatment of human ailments includes any medicine to be administered by hypodermic injection but does not include a reference to gargles, mouthwashes, eye drops, eye lotions, ear drops and douches for nasopharyngeal, rectal, vaginal or urethral use;

(c) “food” includes a beverage;

---

[Subsidiary]

(d) “British Pharmacopoeia” and “British Pharmaceutical Codex” includes the supplements and addenda thereto.

(3) Any reference in the Schedules to these Rules to the percentage of a poison contained in any substance shall, unless otherwise expressly provided, be construed in the following manner, that is, a reference to a substance containing one *per cent* of any poison means —

(a) in the case of a solid, that one gramme of the poison is contained in every hundred grammes of the substance; and

(b) in the case of a liquid, that one millilitre of the poison, or if the poison itself is a solid, one gramme of the poison, is contained in every hundred millilitres of the substance,

and so in proportion for any greater or less percentage.

#### **Licences.**

3. (1) Licences to import and store poisons shall be in Form A in the Eighth Schedule.

(2) Licences to deal generally in poisons by wholesale and retail shall be in Form B in the Eighth Schedule.

(3) Licences to keep and sell specified poisons by wholesale shall be in Form C in the Eighth Schedule.

(4) Licences to keep and sell specified poisons by retail shall be in Form D in the Eighth Schedule.

#### **Form for recording sale of poisons.**

4. The record of the sale by retail of any of the poisons in the First Schedule shall be in Form E in the Eighth Schedule.

#### **Conditions of sale of poisons.**

5. The sale of any poison which by section 8 is exempted from the provisions of section 6 shall be subject to the following —

(a) it shall be sold only upon an order in writing given by or on behalf of a person, firm or body corporate known to the vendor;

(b) persons licensed under the Act other than licensed pharmacists and licensed practitioners, shall keep a record of the sale of all poisons in a book kept solely for that purpose. The record shall be kept in Form F in the Eighth Schedule;

(c) a record of a sale of a poison in the First Schedule by a licensed pharmacist or licensed practitioner shall be kept in Form E in the Eighth Schedule, but the signature of the purchaser and the signature and address of the person introducing him may be omitted; and

(d) such record shall be made on the day on which the poison is supplied.

### LEAD TETRA-ETHYL

#### Special provisions in respect of lead tetra-ethyl.

6. (1) In this rule —

“concentrated ethyl fluid” means any fluid containing lead tetra-ethyl in a proportion exceeding one part in 950 parts by volume;

“ethyl-petrol” means motor spirit containing lead tetra-ethyl;

“lead tetra-ethyl” includes other similar lead-containing compounds used as ingredients of motor fuels.

(2) No person shall manufacture lead tetra-ethyl in Brunei Darussalam.

(3) The importation, possession and use of concentrated ethyl-fluid, except in accordance with provisions of a licence issued in that behalf by a Licensing Officer is prohibited. A Licensing Officer may, at his discretion and subject to any conditions which he may consider necessary, issue such licence and every such licence shall be revocable at any time by a Licensing Officer without compensation.

(4) Persons obtaining ethyl-petrol, either directly or indirectly, from a licensed importer shall be exempted from the provisions of the Act and of all rules made thereunder except those contained in subrules (5), (6), (7) and (8).

(5) No person shall import, sell or have in his possession any ethyl-petrol containing lead tetra-ethyl in a proportion exceeding one part in 950 parts by volume.

(6) No person shall import, sell or have in his possession any ethyl-petrol unless such ethyl-petrol be coloured blue, red, green, orange or brown.

(7) No person shall sell ethyl-petrol in containers unless such containers bear a label in the English, Malay and Chinese languages to the following effect —

[Subsidiary]

This spirit contains lead — To be used for Motor Fuel only.

(8) No person shall sell ethyl-petrol unless at the place of sale —

(a) there is prominently displayed in a conspicuous place, a notice in the English, Malay and Chinese languages to the following effect —

This spirit contains lead — To be used for Motor Fuel only;

(b) there are available for distribution on request, leaflets in the English, Malay and Chinese languages adequately describing the possible dangers involved in the use of ethyl-petrol and the precautions to be taken in dealing therewith.

#### **Licence fees.**

7. The fees for licences under the Act shall be as set out in the Ninth Schedule.

#### APPLICATION AND RELAXATION OF PROVISIONS OF ACT

#### **Extension of labelling provisions.**

8. The provisions of section 6(2) and the provisions of these Rules relating to the labelling of poisons shall apply with respect to —

(a) the sale of any poisons in the circumstances specified in section 8(a), (c), (d), (e), (f) and (g); and

(b) the supply of poisons (otherwise than by sale),

in like manner as if references in those provisions to the sale and the seller of poisons included references to the supply and the supplier of poisons respectively.

#### **Limitation of section 6(3) to certain substances.**

9. Except as provided in section 8, the provisions of section 6(3) shall apply to all substances in the First Schedule (whether or not they consist of or contain poisons included in Part I of the Poisons List) and shall not apply to any other substance.

#### **Extension of section 6(3) to the supply of poisons otherwise than by sale, including commercial samples.**

10. The provisions of section 6(3) shall apply to the supply, otherwise than by sale, including the supply of commercial samples, of any substance consisting of or containing any poison included in the First Schedule, otherwise than upon the signed

request of a registered medical practitioner, veterinary surgeon, dentist, pharmacist, or a person who requires the poison for the purpose of his trade or business.

**Relaxation of section 7(3) in case of certain medicines.**

**11.** The requirements mentioned in section 7(3) need not be satisfied in the case of any medicine, not being a medicine consisting of or containing any substance included in the First Schedule, which is supplied by —

(a) a licensed practitioner for the purpose of medical treatment; or

(b) a person licensed to sell any poison included in Part I of the Poisons List on and in accordance with a prescription given by a registered medical practitioner.

**Exemption from provisions relating solely to First Schedule.**

**12.** Such of the provisions of these Rules and of the Act as apply solely to the substances included in the First Schedule shall not apply to —

(a) machine spread plasters;

(b) surgical dressing; or

(c) articles containing barium carbonate and prepared for the destruction of rats and mice.

**Complete exemption for certain articles and poisons.**

**13.** Nothing in these Rules or in the provisions of the Act shall apply with respect to —

(a) any articles included in Group I of the Second Schedule;

(b) any poison specified in the first column of Group II of the Second Schedule when contained in or consisting of the article or substance specified in the second column opposite the description of that poison; or

(c) any poison specified in the first column of Group III of the Second Schedule when sold, stored, or used in accordance with the conditions stated in the second column.

[Subsidiary]

## ADDITIONAL RESTRICTIONS ON SALE OF POISONS

**Additional restriction on certain poisons.**

14. (1) It shall not be lawful to sell any poison included in the Third Schedule, except on and in accordance with a prescription given by a registered medical practitioner, dentist or veterinary surgeon in the form provided by this rule.

(2) This rule shall apply to the sale of any such poison, notwithstanding that it consists of or is an ingredient of a medicine dispensed or supplied in the circumstances specified in of section 7(1)(b) and (c), and in accordance with the provisions of that section, but shall not apply to the sale of any such poison in the circumstances specified in section 8.

(3) For the purposes, of this rule, a prescription shall —

(a) be in writing and be signed by the person giving it with his usual signature and be dated by him;

(b) specify the address of the person giving it;

(c) specify the name and address of the person for whose treatment it is given or, if the prescription is given by a veterinary surgeon, of the person to whom the medicine is to be delivered;

(d) have written thereon, if given by a dentist, the words “For dental treatment only” or, if given by a veterinary surgeon, the words “For animal treatment only”; and

(e) indicate the total amount of the medicine to be supplied and the dose to be taken.

(4) The person dispensing the prescription shall comply with the following requirements —

(a) the prescription shall not be dispensed more than once unless the prescriber has stated thereon that it may be dispensed more than once;

(b) if the prescription contains a direction that it may be dispensed a stated number of times or at stated intervals, it shall not be dispensed otherwise than in accordance with the directions; and

(c) at the time of dispensing there shall be noted on the face of the prescription above the signature of the prescriber the name and address of the seller and the date on which the prescription is dispensed.

**Restriction of sales by persons licensed to sell Part II Poisons.**

15. (1) No person licensed to sell Part II Poisons only shall sell any arsenical or mercurial poisons unless the purchaser thereof is engaged in the trade or business of agriculture or horticulture or the preservation of buildings or other structures liable to be destroyed by termites or other insects and requires the poison for the purpose of the trade or business.

(2) No person licensed to sell by retail Part II Poisons only shall sell any poison except in a closed container as closed by the manufacturer or other person from whom the poison was obtained.

**Restriction on sale of strychnine.**

16. It shall not be lawful to sell or supply strychnine except as an ingredient in a medicine:

Provided that this rule shall not apply to the sale of strychnine —

(a) by way of wholesale dealing;

(b) for the purpose of being compounded in medicines prescribed or administered by a registered medical practitioner or veterinary surgeon; or

(c) to a person or institution concerned with scientific education or research or chemical analysis, for the purpose of that education, research or analysis.

**SUPPLEMENTARY PROVISIONS WITH RESPECT TO  
LABELLING AND CONTAINERS****Manner of labelling containers.**

17. (1) Subject to any provision to the contrary, the particulars with which the container of a poison is required to be labelled under section 6(2) and under these Rules, shall appear in a conspicuous position on the container in which the poison is sold and on the box or other covering of whatever nature enclosing the container, and the particulars shall be clearly and distinctly set out in any way obscured or obliterated.

(2) Where the poison is contained in an ampoule, cachet or similar article, it shall not be necessary to label the article itself if the box or other covering in which the article is enclosed is duly labelled.

(3) Nothing in section 6(2) or in these Rules shall require the labelling of any transparent cover or of any wrapper, hamper, packing case, crate or other covering used solely for the purposes of transport or delivery.

---

[Subsidiary]

**Labelling of name of poison.**

**18.** (1) Subject as hereinafter provided, the name of a poison shall, for the purpose of provisions relating to labelling, be the term under which it is included in the Poison List:

Provided that where the describes a group of poisons and not the poison specifically, the name of the poison shall be —

(a) if the poison is the subject of a monograph in either the British Pharmacopoeia or the British Pharmaceutical Codex, one or other of the names or synonyms set out at the head of the monograph; and

(b) in any other case, the accepted scientific name or names descriptive of the true nature and origin of the poison.

(2) Notwithstanding anything in subsection (1), if the poison consists of, or is contained in, any preparation in the British Pharmacopoeia, or the Formulary of the British Pharmaceutical Codex, or any dilution or admixture of such a preparation, the name of the poison may, for the purposes of this rule, be the name or synonym or abbreviated name used to describe the preparation in the British Pharmacopoeia or the Formulary of the British Pharmaceutical Codex, with the addition of the letters B.P. or B.P.C., as the case may be.

**Labelling of particulars as to proportion of poison.**

**19.** (1) The label of the container of a preparation which contains a poison as one of its ingredients shall include a statement of the proportion, whether stated as a percentage or not, which the poison bears to the total ingredients of the preparation, and where the proportion is stated as a percentage, the container shall be so labelled as to indicate whether the percentage is calculated on a basis of weight in weight, weight in volume, or volume in volume.

(2) (a) In the case of a preparation containing a poison specified in the first column of the Fourth Schedule, it shall be sufficient to state on the label the particulars specified in the second column of that Schedule against the description of the poison.

(b) In the case of a preparation derived from *nux vomica* or from opium and containing one or more alkaloids of *nux vomica* or of opium named in the Poisons List, it shall be sufficient, so far as those alkaloids are concerned, to state on the label the proportion of strychnine or of morphine, as the case may be, contained in the preparation.

(3) In the case of a preparation in the British Pharmacopoeia or the Formulary of the British Pharmaceutical Codex which is named in accordance with subrule (2) it shall not be necessary to state on the label the proportion of poison contained in the preparation and in the case of any dilution or admixture of such a preparation, it shall be

sufficient to state the proportion which the preparation bears to the total ingredients of the dilution or admixture.

(4) Where the poison is in tablets, pills, cachets, capsules, lozenges or similar articles, or in ampoules, it shall be sufficient if the label of the box or other covering in which the articles are enclosed states the number of the articles and the amount of the poison, or in the case of such a preparation as is mentioned in subrule (3), the amount of the preparation contained in each article.

#### **Indication of character of poison.**

**20.** (1) The container of any article specified in the Fifth Schedule shall, instead of being labelled with the word “Poison”, be labelled with the words specified in the Fifth Schedule as applicable to that article.

(2) Those said words or the word “Poison”, as the case may be, shall not be modified in meaning by the addition of any other word or mark, and shall —

(a) in the case of a substance included in the Poisons List, either be in red lettering or be set against a red background. The word “Poison” shall be written or printed in the English, Malay and Chinese languages; and

(b) in all cases either be on a separate label or be surrounded by a line within which there shall be no other words except words with which the container of the poison is required to be labelled under the Act or these Rules.

#### **Special cautions in case of certain substances.**

**21.** (1) It shall not be lawful —

(a) to sell or supply any liquid poison, other than a medicine, in a bottle of a capacity of less than 120 fluid ounces, unless the bottle is labelled with the words “Not to be taken” in red lettering or set against a red background, in the English, Malay and Chinese languages;

(b) to sell or supply any poison consisting of or contained in any embrocation, liniment, lotion, liquid anti-septic, liquid disinfectant, or other medicine for external application unless the container is labelled with the name of the article and the words “Not to be taken internally” in red lettering or set against a red background, in the English, Malay and Chinese languages;

(c) to sell or supply any compressed hydrocyanic acid, or ammonia unless the container is labelled with the words “Warning. This container holds poisonous gas and should only be opened and used by persons having expert knowledge of the precautions to be taken in its use”.

[Subsidiary]

(2) The provisions of this rule shall be in addition to the other requirements of the Act and of these Rules with respect to labelling and shall apply to medicines and poisons dispensed or supplied in accordance with section 7.

**Relaxation of certain labelling requirements.**

22. (1) The provisions of section 6(2)(d) shall not apply in the case of an article sold for the purpose of re-sale in the same container, and the requirements of section 6(2)(d) shall be deemed to be satisfied, in the case of a poison supplied from a warehouse or depot, if the container of the poison is labelled with the address of the supplier's principal place of business, or, in the case of a limited company, of the registered office of the company.

(2) Where any poison (other than a substance included in the First Schedule) is sold in a container and outer covering, being the container and covering in which it was obtained by the seller, it shall be sufficient if the name of the seller and the address of the premises on which it was sold appear only on the outer covering.

(3) Where the names of more than one person or more than one address appear on any label, there shall also be words on the label indicating clearly which person is the seller and at which of the addresses the poison was sold.

**Form of containers.**

23. (1) It shall not be lawful to sell, whether wholesale or retail, or supply any poison unless it is contained in a container impervious to the poison and sufficiently stout to prevent leakage arising from the ordinary risks of handling and transport.

(2) This rule shall apply to medicines and poisons dispensed or supplied in accordance with section 7.

STORAGE AND TRANSPORT

**Storage of poisons.**

24. (1) It shall not be lawful to store any poison except in a container impervious to the poison and sufficiently stout to prevent leakage from the container arising from the ordinary risks of handling and transport.

(2) It shall not be lawful to store any substance included in the First Schedule in any retail shop or premises used in connection therewith unless the substance is stored —

(a) in a cupboard or drawer reserved solely for the storage of poisons;

(b) in a part of the premises which is partitioned off or otherwise separated from the remainder of the premises and to which customers are not permitted to have access; or

(c) on a shelf reserved solely for the storage of poisons and —

(i) no food is kept directly under the shelf; and

(ii) the container of the substance is rendered distinguishable by touch from the containers of articles and substances other than poisons stored upon the same premises:

Provided that, in the case of any such substance to be used in agriculture or horticulture, it shall not be lawful to store the substance on any shelf, or in any such part of the premises as aforesaid if food is kept in that part, or in any cupboard or drawer unless the cupboard or drawer is reserved solely for the storage of poisons to be used as aforesaid.

### **Transport of poisons.**

25. It shall not be lawful to consign any poison for transport unless it is so packed as to avoid leakage arising from the ordinary risks of handling and transport.

### **Special provisions with respect to transport of certain poisons in Sixth Schedule.**

26. (1) It shall not be lawful to consign for transport by a carrier any substance or article, other than a medicine, consisting of or containing any poison included in the Sixth Schedule, unless the package containing the substance or article is labelled conspicuously with the name of the poison and a notice indicating that it is to be kept separate from foodstuffs and from empty containers in which foodstuffs have been contained.

(2) It shall not be lawful for any person knowingly to transport any such substance or article as aforesaid, either on his own behalf or for another person, in any vehicles in which food is being transported, unless the food is carried in a part of the vehicle effectively separated from that containing the substance or is otherwise adequately protected from the risk of contamination.

## SPECIAL PROVISIONS WITH RESPECT TO HOSPITALS

### **Supply of medicines to out-patients from certain hospitals etc.**

27. (1) The provisions of the Act and of these Rules shall not apply with respect to —

[Subsidiary]

(a) any medicine for the treatment of human ailments dispensed from a hospital, infirmary or dispensary maintained by any public authority, or out of public funds, or by a charity; or

(b) any medicine for the treatment of animals supplied from a veterinary hospital which is under the superintendence of a veterinary surgeon,

but the requirements contained in the following provisions of this rule shall be satisfied in relation thereto.

(2) The medicine shall only be supplied by, or on and in accordance with a prescription of, a medical practitioner for the purposes of medical treatment, or a dentist for the purposes of dental treatment, or a veterinary surgeon for the purposes of animal treatment.

(3) In a case where a substance included in the First Schedule is supplied, a record shall be kept on the premises in such a way that there can readily be traced at any time during a period of 2 years after the date on which the substance was supplied the following particulars —

(a) the name and quantity of the poison supplied;

(b) the date on which the poison was supplied;

(c) the name and address of the person to whom the poison was supplied;  
and

(d) the name of the person who supplied the poison or who gave the prescription upon which it was supplied.

(4) The container of the medicine shall be labelled —

(a) with the name and address of the hospital, infirmary, dispensary or institution from which it was supplied;

(b) except in the case of a medicine made up ready for internal treatment, with the word “Poison”; and

(c) in the case of a poison supplied from a veterinary hospital, with the words “For animal treatment only”.

**Supply of medicines for use in hospital etc.**

**28.** (1) The provisions of this rule and rule 29 shall apply to any hospital, infirmary, dispensary, clinic, nursing home or other institution at which human ailments are treated (referred to in this rule and in rule 29 as “an institution”).

(2) In any institution in which medicines are dispensed in a dispensing or pharmaceutical department in charge of a person appointed for that purpose, no medicine containing a poison shall be supplied from that department, except in cases of emergency, for use in the wards, operating theatres or other sections of the institution, except in accordance with the requirements contained in the following provisions of this rule.

(3) The medicines shall only be supplied upon a written order signed by a registered medical practitioner, dentist, or by a sister in charge of a ward, theatre or other section of the institution.

(4) The container of the medicine shall be labeled —

(a) with the words describing its contents; and

(b) in the case of substances included in the First Schedule, with a distinguishing mark or other indication indicating that the poison is to be stored in a cupboard reserved solely for the storage of poisons.

**Storage of poisons in institutions.**

**29.** (1) The requirements contained in this rule shall apply to the storage of poisons in institutions.

(2) In any institution in which medicines are dispensed in a dispensing or pharmaceutical department in charge of a person appointed for the purpose, all poisons other than those issued for use within the institution shall be stored in that department.

(3) In any institution to which subrule (2) does not apply, all poisons other than those issued for use within the institution shall be stored —

(a) in charge of a person appointed for the purpose by the governing body or person in control of the institution; and

(b) in the case of poisons which are included in the First Schedule either in a cupboard or drawer, or on a shelf, reserved solely for the storage of poisons:

Provided that, where a poison is stored on a shelf, the container of the poison shall be rendered distinguishable by touch from the containers of articles other than poisons stored on the same premises.

[Subsidiary]

(4) In any institution, every substance included in the First Schedule which is stored in the wards shall be stored in a cupboard reserved solely for the storage of poisons and poisonous substances.

(5) All places in which poisons are required by this rule to be stored shall be inspected at regular intervals of time not exceeding 3 months by a pharmacist or by some other person appointed for the purpose by the governing body or person in control of the institution.

#### COLOURING OF POISONS

##### **Manufacture of pharmaceutical preparations.**

**30.** (1) It shall not be lawful to sell any poison included in the Seventh Schedule and intended for use in agriculture or horticulture for the destruction of bacteria, fungi, insects, vermin or as weedkiller or for the preservation of buildings or other structures liable to be destroyed by termites or other insects unless there has been added to the poison a dye of a distinctive colour. The dye must be soluble in water if the poison is intended to be used dissolved or mixed with water. If the poison is sodium arsenite or any other alkaline arsenite, the dye shall be methylene blue, which shall be thoroughly mixed with the poison in the proportion of not less than one part by weight of methylene blue to every hundred parts by weight of alkaline arsenite.

(2) This rule shall not apply to —

- (a) lead arsenate paste or lead arsenate powder;
- (b) poisons which are of themselves of a distinctive colour; or
- (c) sheep dips which are already of a distinctive colour.

##### **Books, records and orders to be preserved on premises of sale for 2 years.**

**31.** All books, records and orders required under the provisions of the Act or these Rules shall be preserved on the premises at which the sale was made for a period of 2 years from the date of the sale or the date on which the last entry was made in the book or record.

## FIRST SCHEDULE

[S 102/1979]

(rule 9)

SUBSTANCES FALLING WITHIN POISONS LIST TO WHICH SPECIAL  
RESTRICTIONS APPLY

- Acepromazine; its salts  
 Acetanilide; alkyl acetanilides  
 Acetazolamide; its salts  
 Acetohexamide  
 Acetorphine; its salts; its esters and ethers; their salts  
 Acetylcarbromal  
 Acetylcholine Chloride  
 Acetylcysteine  
 Acetyldigitoxin  
 Acetylhydrocodeine; its salts  
 Acetylmethadol; its salts  
 Adiphenine Hydrochloride  
 Alclofenac  
 Alcuronium chloride  
 Aldicarb  
 Alkaloids, the following; the quaternary compounds; any salt simple or complex, of any substance falling within the following —  
 Aconite, alkaloids of, except substances containing less than 0.02% of the alkaloids of aconite  
 Atropine, except substances containing less than 0.15% of atrophine or not more than 1% of atropine methonitrate  
 Belladonna, alkaloids of, except substances containing less than 0.15% of the alkaloids of belladonna calculated as hyoscyamine  
 Brucine except substances containing less than 0.02% of brucine  
 Calabar beans, alkaloids of  
 Coca, alkaloids of, except substances containing less than 0.1% of the alkaloids of coca  
 Cocaine, except substances containing less than 0.1% of cocaine  
 Codeine; its esters and ethers, except substances containing less than 1.5% of codeine  
 Colchichum, alkaloids of  
 Coniine except substances containing less than 0.1% of coniine  
 Cotarnie except substances containing less than 0.2% of cotarnine  
 Curare, alkaloids of; curare bases  
 Ecgonine, its esters and ether; except substances less than the equivalent of 0.1% of ecgonine  
 Emetine, except substances containing less than 1% of emetine

[Subsidiary]

## FIRST SCHEDULE — (continued)

- Ephedrine, its optical isomers; except when contained in liquid preparations (other than aerosol dispensers) or preparations not intended for internal treatment of human ailments and except solid preparations containing less than 10% of ephedrine or its optical isomers otherwise than in an inert diluent
- Ergot, alkaloids of, whether hydrogenated or not; their homologues; any salt of any substance falling within this item
- Gelsemium, alkaloids of, except substances containing less than 0.1% of the alkaloids of gelsemium
- Homatropine except substances containing less than 0.15% of homatropine
- Hyoscyne except substances containing less than 0.15% hyoscyne
- Hyoscyamine except substances containing less than 0.15% of hyoscyamine
- Jaborandi, alkaloids of, except substances containing less than 0.5% of the alkaloids of jaborandi
- Lobelia, alkaloids of, except substances containing less than 0.5% of the alkaloids of lobelia
- Morphine; its salts, its esters and ethers; their salts; except substances containing less than 0.2% of morphine calculated as anhydrous morphine
- Nicotine
- Papaverine except substances containing less than 1% of papaverine
- Pomegranate, alkaloids of, except substances containing less than 0.5% of the alkaloids of pomegranate
- Quebracho, alkaloids of
- Rauwolfia, alkaloids of; their salts; derivatives of the alkaloids of rauwolfia, their salts
- Sabadilla, alkaloids of; except substances containing less than 1% of the alkaloids of sabadilla
- Solanaceous alkaloids, not otherwise included in this Schedule, except substances containing less than 0.15% of solanaceous alkaloids calculated as hyoscyamine
- Stavesacre, alkaloids of, except substances containing less than 0.2% of the alkaloids of stavesacre
- Strychnine except substances containing less than 0.2% of strychnine
- Thebaine except substances containing less than 1% of thebaine
- Veratrum, alkaloids of, except substances containing less than 1% of the alkaloids of veratrum
- Yohimba, alkaloids of
- Allylisopropylacetylurea
- Allylprodine; its salts
- Alphacetylmethadol; its salts
- Alphameprodine; its salts
- Alphamethadol; its salts
- Alphaprodine; its salts
- Alprenolol; its salts
- Amibenonium Chloride

## FIRST SCHEDULE — (continued)

Ambuside  
Ametazole Hydrochloride  
Amethocaine; its salts  
Amidopyrine; its salts; amidopyrine sulphonate; its salts  
Amiloride Hydrochloride  
Amino-alcohols esterified with benzoic acid, phenylacetic acid, phenylpropionic acid, ocinnamic acid or the derivatives of these acids, except substance containing less than 10% of esterified amino-alcohols; their salts  
p-Aminobenzenesulphonamide; its salts; derivatives of p-aminobenzene-sulphonamide having any of the hydrogen atoms of the p-amino group or of the sulphonamide group substituted by another radical; their salts  
Aminopterin Sodium  
Aminorex; its salts  
p-Aminosalicylic acid; its salts  
Ammonium chlorate  
Ammonium perchlorate  
Androgenic, oestrogenic and progestational substances, the following —  
    Benzoestrol  
    Derivatives of stillbene, dibenzyl or naphthalene with oestrogenic activity; their esters  
    Steroid compounds with androgenic or oestrogenic or progestational activity; their salts  
Anilerdine; its salts  
Antibiotics, the following; their salts their esters and salts of such esters —  
    Actinomycins  
    Amikacin Sulphate  
    Amphotericins  
    Amphotericins  
    Bacitracin  
    Bleomycin  
    Candicidin  
    Capreomycin  
    Cephaloglycin  
    Cephaloridin  
    Cephalosporins, that is to say, the antimicrobial substances containing in their chemical structure a fused dihydrothiazine B-lactam nucleus  
    Chloramphenicol  
    Chlortetracyclin  
    Clindamycin  
    Cycloserine  
    Demethylchlortetracycline  
    Erythromycin  
    Flavomycin  
    Framycetin  
    Fusidic acid

[Subsidiary]

## FIRST SCHEDULE — (continued)

- Gentamycin
- Gramicidins
- Griseofulvin
- Hachimycin
- Kanamycin
- Lincomycin, that is to say, the S-alkyl derivatives of 6, 8-dideoxy-6-trans-(4)-alkyl-L-2-pyrrolidine carboxamido)-1-thio-D-erythro-oc-D-galacto-octo-pyranoside and N-methyl-pyrrolidine analogues thereof
- Methacyline
- Mithramycins
- Minocycline
- Mitomycins
- Neomycin
- Novobiocin
- Nystatin
- Oleandomycin
- Oxytetracycline
- Praromomycin
- Penicillin, its salts and derivatives
- Polymixins
- Rifomycins, that is to say, a group of related microlactans either produced by the growth of streptomyces mediterranei or by modification of such products and containing the chemical structure of 11-acetoxy-7, 9, 15- trihydroxy-13-methoxy-2, 6, 8, 10, 12-pentamethylpentadeca-2, 4, 14-trienoci acid amide, attached by the nitrogen atom and by the oxygen atom in the 15 position respectively to the 7-and 2-position of a 5, 6, 9-trioxygenated 2, 4-dimethyl-1-oxonaphtho (2, 1-b) furan
- Ristocetins
- Spectionomycins
- Spiramycin
- Streptomycin and its derivatives
- Tetracyclines, that is to say, the antimicrobial substances containing the chemical structure naphthacene-2-carboxymide, hydrogenated to any extent, and having each of the positions 1, 3, 10, 11 and 12 substituted by a hydroxyl or an oxo group
- Thiamphenicol
- Tobramycin
- Tylosin
- Tyrothricin
- Vanomycin
- Viomycin
- Virginiamycin
- Antimony, chlorides of, antimonates, antimonites, organic compounds of antimony
- Apiol

## FIRST SCHEDULE — (continued)

Apomorphine; its salts  
Aprotinin  
Arsenical poisons, except substances containing less than the equivalent of 0.01% of arsenic trioxide and except dentifrices containing less than 0.5% of acetarsol  
L-Asparaginase  
Atenolol  
Azacylonol; its salts  
Azapropazone  
Azathioprine  
Barbituric acid; its salts; derivatives of barbituric acid; their salts; compounds of barbituric acid; its salts; its derivatives; their salts; with any other substance  
Barium; salts of, other than barium sulphate and the salts of barium specified in Part II of the Poisons List  
Beclamide  
Bemegride  
Benactyzine; its salts; its quaternary compounds  
Benapryzine  
Benserazide Hydrochloride  
Benzbromarone  
Benzethidine; its salts  
Benzene  
Benzhexol; its salts  
Benzidine  
Benzilium Bromide  
Benzocaine  
Benzoctamine; its salts  
Benzoylmorphine; its salts  
Benztropine; and its homologues; their salts  
Benzylmorphine; its salts  
Betacetylmethadol; its salts  
Betachloralose  
Betameprodine; its salts  
Betamethadol; its salts  
Betaprodine; its salts  
Bethanadine; its salts  
Bethanechol Chloride  
Beziramide; its salts  
Biperiden; its salts  
Bretylium; its salts  
Bromhexine Hydrochloride  
Bromocriptine Mesylate  
Bromvaletone  
Bufexamac  
Buformin; its salts

[Subsidiary]

## FIRST SCHEDULE — (continued)

Bufotenine; its salts; its esters and ethers; their salts  
Buphenine Hydrochloride  
Bupivacaine; its salts  
Busulphan; its salts  
Butacaine Sulphate  
Butriptyline hydrochloride  
Cannabinol and its tetrahydro derivatives prepared partly or wholly by synthesis; their 3-alkyl homologues; and esters and ethers of any substance falling within this item  
Cannabis; the whole plant, or part thereof, the resin of cannabis; extracts of cannabis; tinctures of cannabis, cannabin tannate  
Cantharidin except substances containing less than 0.01% of contharidin  
Cantharidates except substances conrtaining less than the equivalent of 0.01% of cantharidin  
Captodiamine; its salts  
Caramiphen; its salts  
Carbachol  
Carbamazepine  
Carbenoxolone; its salts  
Carbidopa  
Carbimazole  
Carbofuran  
Carbromal  
Carbutamide; its salts  
Carisoprodol  
Carperidine; its salts  
Chloral; its addition and condensation products; their molecular compounds; except when contained, in the form of chloral hydrate, in preparations intended for external application only  
Chlorambucil  
Chlordiazepoxide; its salts  
Chlorinated hydrocarbons, the following —  
Aldrin  
Benzoximate  
Benzene hexachloride (BHC) (HCH)  
Bromocyclen  
Camphechlor  
Captafal  
Captan  
Chlorbenside  
Chlorbicyclen  
Chlordane  
Chlordencone  
Chlordimeform  
Clorfenethol

## FIRST SCHEDULE — (continued)

Chlorfenson  
Chlorfesulfide  
Chlorobenzilate  
Chloromebuform  
Chloropropylate  
Dicophane (D.D.T.)  
pp<sup>2</sup> -DDT  
Dicofol  
Dieldrin  
Dienochlor  
Diflubenzuron  
Endosulfan  
Endrin  
Fenazaflor  
Fenson  
Fluorbenzide  
Folpit  
Gamma benzene hydrochloride (Gamma-BHC)  
HEOD  
HHDN  
Heptachlor  
Isobenzan  
Isodrin  
Kelevan  
Methoxychlor (1, 1, 1-trichlor-2, 2-di-(p-methoxyphenyl) ethane)  
Quintozene  
Tetrachlordiphenlethane (TDE)  
Tetradifon  
Tetrasul  
Toxaphene  
Allied chlorinated hydrocarbon compounds used as pesticides (insecticides, acaricides etc.)  
Chlorinated phenols; their salts  
Chlormequat  
Chlormethizole; its salts  
Chloroform; except substances containing not more than 5% of chloroform or when in preparations not intended for the internal treatment of human ailments  
Chloropicrin  
Chlorothiazide and other derivatives of benzo-1, 2, 4-thiadiazine-7-sulphonamide 1, 1-dioxide  
Chlorphenoxamine; its salts  
Chlorphentermine; its salts  
Chlorpropamide; its salts  
Chlorprothixine and other derivatives of 9-methylenethia-zanthern; their salts

[Subsidiary]

## FIRST SCHEDULE — (continued)

Chlorthalidone and other derivatives of o-chlorobenzene sulphonamide  
Chlorzoxazone  
Cimetidine  
Clofazimine  
Clofibrate  
Clomiphene; its salts  
Clomidine; its salts  
Clonitazine  
Clorexolone  
Clorpenaline; its salts; when contained in aerosol dispensers  
Clotrimazol  
Codoxime; its salts  
Corticotrophins, natural and synthetics  
Cortisone, hydrocortisone, prednisone, prednisolone, derivatives of these with hydroxyl, alkyl groups of halogens as substituents, esters and salts of esters of such derivatives  
Curare  
4-Cyano-2-dimethylamino-4, 4-diphenylbutane; its salts  
4-Cyano-1-methyl-4-phenylpiperidine; its salts  
Cyclarbamate  
Cyclohexamide  
Cyclophenolate Hydrochloride  
Cyclophosphamide  
Cycrimine  
Cyhexatin  
Cyproterone  
Cytarabine  
Dacarbazine  
Danazol  
Dantrolene Sodium  
Dapsone; its salts  
Daunorubicin; its salts  
Deanol; its salts  
Debrisoquine; its salts  
Dehydroemetine; its salts  
Demecarium bromide  
Deptropine; its salts  
Desferrioxamine Mesylate  
Desipramide; its salts  
Desomorphine; its salts; its esters and ethers; their salts  
Dexetimide  
Dextromethorphan; its salts; except substances containing less than 1.5% of dextromethorphan  
Dextromoramide; its salts  
Dextrophan; its salts

## FIRST SCHEDULE — (continued)

Diacetylmorphine; its salts  
Diacetylnalorphine; its salts  
Diamino-diphenyl sulphones; their salts; their derivatives  
Diampromide; its salts  
Diazepam and other compounds containing the chemical structure or dihydro-1 4-benzodiazepine substituted to any degree; their salts  
Diazoxide; its salts  
Dilbenzopin; its salts  
Dicyclomine Hydrochloride  
N, N-Disthyltryptamine (DET): its salts  
Difenoxin  
Digitalis, glycosides and other active principles of digitalis; except substances containing less than one unit of activity (as defined in the British Pharmacopoeia) in two grammes of the substance  
Dihydrallazine; its salts  
Dihydrocodeine; its salts; its esters and ethers; their salts  
Dihydrocodeinone; its salts  
Dihydromorphine; its salts; its esters and ethers; their salts  
Diloxanide Furoate  
Dimenoxadole; its salts  
Dimephtanol; its salts, its esters and ethers; their salts  
Dimepropion  
Dimercaprol  
Dimethrin  
Dimetilan  
Dimethothiazine Mesylate  
2, 5-Dimethoxy-oc, 4-dimethylphenethylamine; its salts (DOM)  
Dimethylthiambutene; its salts  
N, N-Dimethyltryptamine (DMT); its salts  
Dimethyltubocurarine; its salts  
Dinitroresols (DNOC); their compounds with a metal or base  
Dinitronaphthols  
Dinitrophenols  
Dinitrothymols  
Dinosam; its compounds with a metal or base  
Dioxacarb  
Dioxaphetyl butyrate; its salts  
Diperodon; its salts  
Diphenoxylate; its salts  
Diphetarsonne  
Dipipanone; its salts  
Diprenorphine Hydrochloride  
Dipyridamole  
Diquat; its salts  
Disopyramide

[Subsidiary]

## FIRST SCHEDULE — (continued)

Distigmine; its salts  
Disulfiram  
Disulphamide  
Dithienylallyl amines; dithienylalkylallyl amines; their salts  
Dopamine Hydrochloride  
Dothiepin; its salts  
Doxapram; its salts  
Doxepin; its salts  
Doxorubicin; its salts  
Drazoxolon; its salts  
Drostanolone; its salts  
Drotebanol  
Dyflon  
Ecothiopate iodine  
Ectylurea  
Edrophonium Chloride  
Embutramide  
Emepromium; its salts  
Emylcamate  
Endothal; its salts  
Estramustine; its salts  
Etafedrine; its salts  
Ethacrynic acid; its salts  
Ethambutol; its salts  
Ethamivan  
Ethamsylate  
Ethchlorvynol  
Ethebenecid  
Ethinamate  
Ethionamide  
Ethoglucid  
Ethoheptazine; its salts  
Ethosuximide  
Ethylmethylthiambutene  
Ethylmorphine; its salts; its esters and ethers; their salts; except substances containing less than 0.2% of ethylmorphine  
Ethylnoradrenaline; its salts  
Etonitazine; its salts  
Etorphine; its salts; its esters and ethers; their salts  
Etoxidine; its salts  
Fazadinium Bromide  
Fencamfamin; its salts  
Fenfluramine; its salts  
Fenpropfen; its salts  
Fenoterol

## FIRST SCHEDULE — (continued)

Fentanyl; its salts  
Flavoxate; its salts  
Fluanisone  
Flucytosine  
Flufenamic acid; its salts; its esters; their salts  
Fluoroacetamide  
Fluoroacetanilide  
Fluorouracil; its salts  
Flupenthixol; its salts  
Fluprostenol  
Flurbiprofen  
Fluspirilene  
Frusemide  
Furaltadone  
Furazolidone  
Furethidine; its salts  
Gallamine; its salts; its quaternary compounds  
Glibenclamide; its salts  
Glibornuride; its salts  
Glipizide  
Glutethimide; its salts  
Glycopyrronium Bromide  
Glymidine  
Guanethidine; its salts  
Guanidines, the following —  
    polymethylene diguanidines di-p-anisyl-p-phenetylguanidine  
Guanoclor; its salts  
Guanoxan; its salts  
Haloperidol and other 4-substituted derivatives of N-(3-p-fluoroben-zoylpropyl)  
    piperidine  
Heparin  
Heptaminol; its salts  
Hexachlorophene  
Hexamethonium; its salts  
Hexapropymate  
3-Hexyl-1-hydroxy-7, 8, 9, 10-tetrahydro-6, 6, 9-trimethyl-6H-dibenzo (b,d) pyran  
    (parahexyl)  
Hydrallazine; its salts  
Hydrazines, benzyl, phenethyl and phenoxyethyl, their oc-methyl deriva-tives, acy  
    derivatives of any of the foregoing substances comprised in this item; salts of any  
    compounds comprised in this item  
Hydrochloric acid  
Hydrocodone; its salts

[Subsidiary]

## FIRST SCHEDULE — (continued)

Hydrocyanic acid except substances containing less than 0.15% weight in weight, of hydrocyanic acid (HCN); cyanides other than ferrocyanides, except substances containing less than the equivalent of 0.1%, weight in weight, of hydrocyanic acid (HCN)

Hydrofluoric acid

Hydromorphanol; its salts; its esters and ethers; their salts

Hydromorphanone; its salts; its esters and ethers; their salts

Hydroxycinchoninic acid; derivatives of; their salts; their esters; except substances containing less than 3% of a hydroxycinchoninic acid or a derivative thereof

Hydroxy-N, N-dimethyltryptamines; their esters or ethers; any salt of any substance falling within this item

Hydroxypethidine; its salts; its esters and ethers; their salts

Hydroxyurea

Hydroxyzine; its salts

Ibuprofen

Idoxuridine

Imipramine; its salts

Indomethacin; its salts

Iprindole; its salts

Iproniazide; its salts

Isoaminile; its salts

Isocarboxazid; its salts

Isoetharine; its salts

Isomethadone (isoamidone); its salts

Isoniazid; its salts; its derivatives; their salts

Isoprenaline; its salts

Isopropamide Iodide

Ketamine; its salts; its esters and ethers; their salts

Ketoprofen

Khellin

Labetolol Hydrochloride

Lactrile

Laudexium; its salts

Lead, compounds of, with acids from fixed oils

Lead tetra-ethyl and similar lead containing compounds

Levodopa; its salts

Levallorphan; its salts

Levomethorphan; its salts

Levomoramide; its salts

Levophenacylmorphan; its salts; its esters and ethers; their salts

Levorphanol; its salts; its esters and ethers; their salts

Lignocaine; its salts

Lithium; carbonate; sulphate

Lofepamine

## FIRST SCHEDULE — (continued)

Loperamide; its salts  
Lysergamide  
Lysergide and other N-alkyl derivatives of lysergamide; their salts; their quaternary compounds  
Mannomustine; its salts  
Maprotiline; its salts  
Mazindol  
Mebanazine; its salts  
Mebendazole  
Mebeverine Hydrochloride  
Mebezonium iodide  
Mebutamate  
Mecamylamine; its salts  
Meclofenoxate; its salts  
Mefenamic acid; its salts; its esters; their salts  
Mefruside  
Mepenzolate Bromide  
Melphalan  
Mephenesin; its salts  
Mepivacaine Hydrochloride  
Meprobamate  
Mercaptopurine; its salts; derivatives of mercaptopurine; their salts  
Mercuric chloride except substances containing less than 1% of mercuric chloride; mercuric iodide except substances containing less than 2% mercuric iodide; nitrates of mercury except substances containing less than the equivalent of 3%, weight in weight, of mercury (Hg); potassiomeric iodides except substances containing less than the equivalent of 1% of mercuric iodide; organic compounds, of mercury except substances, not being aerosols, containing less than the equivalent of 0.2%, weight in weight, of mercury (Hg)  
Mersalyl  
Metaxalone  
Metazocine; its salts; its esters and ethers; their salts  
Metformin; its salts  
Methadone (amidone); its salts  
Methadyl acetate; its salts  
Methaqualone; its salts  
Methimazole  
Methixene; its salts  
Methocarbamol  
Methotrexate  
Methoxamine Hydrochloride  
Methoxsalen  
Methoxyphenamine; its salts; when contained in aerosol dispensers  
Methsuximide

[Subsidiary]

## FIRST SCHEDULE — (continued)

Methylaminopheptane; its salts; when contained in aerosol dispensers  
Methyldesorphine; its salts; its esters and ethers; their salts  
Methyldihydromorphine; its salts; its esters and ethers; their salts  
Methyldopa  
Methyldopate; its salts  
2-Methyl-3-morpholino-1, 1-diphenylpro-panecarboxylic acid; its salts; its esters; their salts  
Methylpentynol; its esters and other derivatives  
oc-Methylphenethylamine, B-methyl-phenethylamine and oc-ethylphenethyl-amine; any synthetic compound structurally derived from any of those substances by substitution in the aliphatic part or by ring closure therein (or by both such substitution and such closure) or by substitution in the aromatic ring (with or without substitution at the nitrogen atom) except ephedrine; its optical isomers and N-substituted derivatives, fenfluramine, hydroxyamphenamine, methoxyphenamine; phenylpropanolamine, pholedrine and prenylamine; any salt of any substance falling within this item  
Methylphenidate; its salts  
Metoclopramide; its salts  
Metomidate Hydrochloride  
Metopon; its salts; its esters and ethers; their salts  
Metoprolol Tartrate  
Metyrapone  
Mexizetine Hydrochloride  
Mianserin Hydrochloride  
Mitobranitol  
Mitopodozide; its salts  
Molindone; its salts  
Monofluoroacetic acid; its salts  
Morazone  
Morinamide; its salts  
Morpheridine; its salts  
Morphine methobromide; morphine N-oxide and other pentavalent nitrogen morphine derivatives  
Mustine and any other N-substituted derivatives of di-(2-chloroethyl) amine; their salts  
Myrophine; its salts  
Nafidrofuryl; its salts  
Nalidixic acid; its salts; its esters and salts of such esters  
Nalorphine; its salts  
Naloxone; its salts  
Naphazoline; its salts  
Naproxen  
Nefopam  
Neostigmine; its salts  
Nialamide; its salts

## FIRST SCHEDULE — (continued)

Niclofolan  
Nicocodine; its salts  
Nicodicodine; its salts  
Nicomorphine; its salts  
Nicoumalone  
Nifedipine  
Nifenazone  
Nikethamide  
Niridazole  
Nitric acid  
Nitrofurantoin  
Nitrofurazone  
Nitromin; its salts  
m-Nitrophenol; o-nitrophenol; p-nitrophenol  
Nitroprusside; its salts  
Noracymethadol; its salts  
Norcodeine; its salts; its esters and ethers; their salts  
Norlevorphanol; its salts; its esters and ethers; their salts  
Normethadone; its salts  
Normorphine; its salts; its esters and ethers; their salts  
Norpipanone  
Nortriptyline; its salts  
Nux Vomica except substances containing less than 2% of strychnine  
Opi Pramol; its salts  
Opium except substances containing less than 0.2% of morphine calculated as anhydrous morphine  
Orciprenaline; its salts; when contained in aerosol dispensers  
Organo-tin compounds, the following —  
    Compound of fentin  
Orphenadrine, its salts  
Othocaine; its salts  
Ouabain  
Oxamniquine  
Oxedrine Tartrate  
Oxethazaine; its salts  
Oxolinic acid  
Oxpernolol; its salts  
Oxybuprocaine Hydrochloride  
Oxycodone; its salts; its esters and ethers; their salts  
Oxymorphone; its salts; its esters and ethers; their salts  
Oxypertine; its salts  
Oxyphenbutazone  
Oxyphencyclimine Hydrochloride  
Oxyphenonium Bromide  
Oxytocins, natural and synthetic

[Subsidiary]

FIRST SCHEDULE — *(continued)*

Pancuronium; its salts  
 Papaverine; its salts  
 Paraldehyde  
 Parmaethadione  
 Paraquat; its salts  
 Parathyroid Gland  
 Pargyline; its salts  
 Pemoline; its salts  
 Pempidine; its salts  
 Penicillamine; its salts  
 Pentazocine; its salts  
 Penthienate Methobromide  
 Pentolinium; its salts  
 Perhexiline maleate  
 Pethidine; its salts  
 Phenacaine; its salts  
 Phenacemide  
 Phenadoxone; its salts  
 Phenaglycodol  
 Phenampromide; its salts  
 Phenazocine; its salts; its esters and ethers; their salts  
 Phenbutrazate; its salts  
 Phencyclidine; its salts  
 Phenethylamine and derivatives  
 Phentidylphenacetin  
 Pheneturide  
 Phenformin; its salts  
 Phenidione  
 Phenindione  
 Phenmetrazine; its salts  
 Phenomorphan; its salt; its esters and ethers; their salts  
 Phenoperidine; its salts; its esters and ethers; their salts  
 Phenothiazine; derivatives of; their salts; except dimethoxanate; its salts and  
 promethazine, its salts and molecular compounds  
 Phenoxybenzamine Hydrochloride  
 Phenoxypropazine; its salts  
 Phenprocoumon  
 Phensuximide  
 Phentermine; its salts  
 Phentolamine; its salts  
 Phenylbutazone; its salts  
 2-Phenylcinchoninic acid; 2-salicylcincho-ninic acid; their salts; their esters  
 5-Phenylhydantoin; its alkyl and aryl derivatives; their salts  
 4-Phenylpiperidine-4-carboxylic acid ethyl ester; its salts  
 Phenylpropanolamine Hydrochloride

## FIRST SCHEDULE — (continued)

Pholcodine; its salts; its ester and ethers; their salts  
Phosphorus compounds, the following —  
Any substance derived from the molecule H<sub>3</sub>PO<sub>4</sub> by substitution of any of the hydrogen and oxygen atoms and used as pesticides (insecticides, acaricides etc.) excepting —  
bromophos  
bromophos-ethyl  
2-chloro-1-(2, 4, 5-trichlorophenyl) vinylidimethyl  
phosphate  
diazinon  
dimethoate  
dipterex  
fenchlorphos  
fenitrothion  
fenthion  
malthion  
o, o, o'' o' -tetramthyl o, o' -thiodi-p-phenylene phosphoric acid  
Physostigmine and its salts  
Picrotoxin  
Pilocarpine; its salts and quaternary compounds except substances containing less than 0.5% of pilocarpine  
Piminodine; its salts  
Pimozide; its salts  
Pindalol  
Pipenzolate Bromide  
Piperidolate Hydrochloride  
Pipradol; its salts; its esters and ethers  
Piracetam  
Piritramide; its salts  
Pituitary gland, active principles of  
Pizotofen and its salts  
Podophyllum and podophyllum resin  
Poldine Methylsulphate  
Polidexide and its salts  
Polymethylenebis(trimethylammonium) salts  
Poppy-straw and concentrate of poppy-straw  
Potassium chlorate  
Potassium hydroxide  
Potassium perchlorate  
Practolol  
Pralidoxime; its salts  
Prazosin  
Prethylamine Lactate  
Prilocaine Hydrochloride  
Primidone

[Subsidiary]

## FIRST SCHEDULE — (continued)

Probenecid  
Procainamide; its salts  
Procarbazine; its salts  
Prochlorperazine; its salts  
Procyclidine; its salts  
Proheptazine; its salts  
Prolintane Hydrochloride  
Promoxolone  
Pronethalol; its salts  
Propanidid  
Propantheline Bromide  
Properidine; its salts  
Propiram  
Propoxyphene; its salts  
Propranolol; its salts  
Prepylhexedrine; its salts  
Propylthiouracil  
Prostaglandins  
Protamine; its salts  
Prothionamide; its salts  
Prothipendyl; its salts  
Protirelin  
Protriptylene; its salts  
Psilocin  
Psilocybin  
Pyrazinamide  
Pyridostigmine Bromide  
Quinethazone  
Quinidine and its salts  
Quinine and its salts  
Racemethorphan; its salts  
Racemoramide; its salts; its esters and ethers; their salts  
Racemorphan; its salts; its esters and ethers; their salts  
Rauwolfia; alkaloids of; their salts; derivatives of the alkaloids of rauwolfia; their salts  
Razoxane  
Rimiteral Hydrobromide  
Ritodrine Hydrochloride  
Salbutamol; its salts  
Salamefamol  
Savin, oil of  
Sodium 4-(dimethylamino) benzenedia-zosulphonate  
Sodium chlorate  
Sodium cromoglycate  
Sodium hydroxide

## FIRST SCHEDULE — (continued)

Sodium perchlorate  
Sodium valproate  
Solapsone  
Sotalol hydrochloride  
Spironalactone  
Strophanthus, glycosides of  
Styramate  
Sulindac  
Sulphinpyrazone  
Sulphonals; alkyl sulphonals  
Sulphuric acid  
Sulpiride  
Suprarenal gland medulla, the active principals of; their salts except when contained in preparations intended for external application only or in inhalants in aerosol dispensers containing adrenaline or its salts rectal preparations or preparations intended for use in the eye  
Suxamethonium; its salts  
Syrosingophine  
Tacrine Hydrochloride  
Tamoxifen; its salts  
Terbutaline; its salts  
Terabenazine; its salts  
Thalidomide; its salts  
Thallium; salt of  
Thebacon; its salts; its esters; their salts  
Thiacetazone  
Thiambutene  
Thimabutozine  
Thiocarlide; its salts  
Thioguanine  
Thiopentone  
Thiotepa; its salts  
Thiothixene; its salts  
Thiouracil; its alkyl derivatives  
Thymoxamine Hydrochloride  
Thyroid gland, the active principles of; their salts  
Tilidene; its salts  
Timolol and its salts  
Tofenacin; its salts  
Tolazamide; its salts  
Tolbutamide; its salts  
Tranexamic Acid  
Tranlycypromine; its salts  
Tretamine; its salts  
Triamterene

[Subsidiary]

FIRST SCHEDULE — *(continued)*

Triaziquone  
Tribromethyl alcohol  
2, 2, 2-Trichloroethyl alcohol, esters of; their salts  
Trimeperidine; its salts  
Trimetaphan; its salts  
Trimethoprim  
Trimipramine; its salts  
Troxidone  
Tubocuarine Chloride  
Tybamate  
Urethane  
Vasopressins, natural and synthetic  
Verapamil, its salts  
Viloxazine; its salts  
Vinblastine; its salts  
Vincristine; its salts  
Warfarin; its salts  
Yohimbine; its salts and quaternary compounds  
Zinc phosphide  
Zoxazolamine; its salts

## SECOND SCHEDULE

(rule 13(a),(b) and (c))

ARTICLES EXEMPTED UNDER RULE 13 FROM PROVISIONS  
OF ACT AND RULES

## GROUP I

## GENERAL EXEMPTIONS

Adhesives; anti-fouling compositions; builders' materials, ceramics, distempers; electrical valves; enamels; explosives; fillers; fireworks; fluorescent lamps; glazes; glue; inks; lacquer solvents; loading materials; matches; motor fuels and lubricants; paints other than pharmaceutical paints; photographic paper; pigments; plastics; propellants; rubber; varnishes; vascular plants and their seeds.

## GROUP II

## SPECIAL EXEMPTIONS

Poison	Substance or article in which exempted
Acetanilide; alkyl acetanilides	Substances not being preparations for the treatment of human ailments.
Acetic Acid	Substances containing less than 20% weight in weight of acetic acid CH <sub>3</sub> CCOH.
Alkaloids, the following —	
Brucine	Surgical spirit containing not more than 0.015% of Brucine.
Emetine	Specacuanha; extracts and tinctures of ipecacuanha; substances containing less than 0.05% of emetine.
Ephedra, alkaloids of	Substances containing less than 1% of the alkaloids of ephedra.

[Subsidiary]

## SECOND SCHEDULE

## GROUP II — (continued)

Poison	Substance or article in which exempted
Jaborandi, alkaloids of	Substances containing less than 0.025% of the alkaloids of jaborandi.
Lobelia, alkaloids of	Preparations for the relief of asthma in the form of cigarettes, smoking mixtures of fumigants; substances containing less than 0.1% of the alkaloids of lobelia.
Nicotine	Tobacco; preparations in aerosol dispensers containing not more than 0.2% w/w of nicotine; other liquid preparations containing not more than 7.5% w/w nicotine.
Pomegranate; alkaloids of	Pomegranate bark.
Solanaceous alkaloids	Stramonium contained in preparations for the relief of asthma in the form of cigarettes, smoking mixtures or fumigants.
Stavesacre, alkaloids of	Soap, ointments; lotions of external use.
Ammonia	Substances not being solutions of ammonia or preparations containing solutions of ammonia; substances containing less than 5% w/w of ammonia (NH <sub>3</sub> ); refrigerators; smelling bottles.
Antimony, chlorides of	Polishes.
Arsenical poisons	Pyrites ores or sulphuric acid containing arsenical poisons as natural impurities.
Barbituric acid; its salts; derivatives of barbituric acid, their salts; compounds of barbituric acid; its salts; its derivatives; their salts with any other substance	Self heating preparations, aerosol dispensers, intended for external application 1, 5-diethyl-2-thio-4-pyrimidinedione and not containing any other substance mentioned opposite hereto in the first column.

## SECOND SCHEDULE

## GROUP II — (continued)

Poison	Substance or article in which exempted
Barium, Salts of	Witherite other than finely ground witherite; barium carbonate bonded to charcoal for case hardening; fire extinguishers containing barium cholride.
Chloroform	Substances containing less than 1% of chloroform; solid preparations; toothpaste.
Creosote obtained from wood	Substances containing less than 50% of creosote obtained from wood.
Diamines, the following; their salts; phnylene diamines; tolylene diamines; other alkylated-benzene diamines	Substances other than preparations for the dyeing of hair.
Dinitrocresols (DNOC); their compounds with a metal or a base	Substances being heither preparations for the treatment of human ailments not preparations for use in agriculture or horticulture.
Dinitrophenols	Substances not being preparations for the treatment of human ailments.
Dinosam; its compounds with a metal or base Dinoseb; its compounds with a metal or a base	Substances not being preparations for use in agriculture or horticulture.
Diperodon; its salts	Preparations intended for external application only, containing not more than 1% of diperodon, calculated as anhydrous base.
Dislufiram	Substances being preparations for the treatment of human ailments.

[Subsidiary]

## SECOND SCHEDULE

GROUP II — *(continued)*

<b>Poison</b>	<b>Substance or article in which exempted</b>
Formaldehydde	Substances containing less than 5% w/w of formal-dehyde (H.CHO); photographic glazing or hardening solutions.
Formic acid	Substances containing less than 5% of formic acid (H.COOH).
Hydrochloric acid	Substances containing less 9% w/w of hydrochloric acid.
Hydrocyanic acid	Preparations of wild cherry; in reagent kits supplied for medical or veterinary purposes, substances containing less than 0.1% w/w of hydrocyanic acid (HCN).
Lead acetate	Substances containing less than 4% of lead acetate.
Lead, compounds of	Machine spread plasters.
Mercuric chloride	Batteries.
Mercuric chloride; mercuric iodides; organic compounds of mercury	Dressings on seeds or bulbs.
Mercury; nitrates of	Ointments containing less than the equivalent of 3%, w/w of mercury (Hg).
Mercury, Oxides of	Canker and wound paints (for trees) containing not more than 3%, w/w, yellow mercuric oxide.
Mescaline; its salts	Living plants.
Nitric Acid	Substances containing less than 9%. w/w, of nitric acid (HNO <sub>3</sub> ).

## SECOND SCHEDULE

## GROUP II — (continued)

Poison	Substance or article in which exempted
Nitrobenzene	Substances containing less than 1% of nitrobenzene; soaps containing less than 1% of nitrobenzene; polishes.
Nitrobenzol	Substances containing less than 1% of nitrobenzol; soaps containing less than 1% of nitrobenzol; polishes.
p-Nitrobenzyl cyanide	Photographic solutions containing less than the equivalent of 0.1%, w/w, of hydrocyanic acid (HCN).
p-Nitrophenol	Preparations for use in agriculture or horticulture containing not more than 0.5% of p-nitrophenol as preservative.
Organo-tin compounds, the following —	
Compounds of Fentin	Substances other than preparations for use in agriculture or horticulture.
Oxalic acid, metallic oxalates	Laundry Blue; polishes; cleaning powders or scouring products containing the equivalent of not more than 10% of oxalic acid dihydrate.
Phenols	Butylated hydroxytoluene; carvacrol; creosote obtained from coal tar; essential oils in which phenols occur naturally; medicines containing less than 1% of phenols; nasal sprays, mouth washes, pastilles, lozenges, capsules, pessaries, ointments and suppositories, containing less than 60% of phenols; tar (coal or wood), crude or refined; p-tertiary amyphenol; p-tertiary butylcresol; p-tertiarybutylphenol; p-(1, 1, 2, 3-tetra-methylbutyl) phenol; thymol.

## SECOND SCHEDULE

GROUP II — *(continued)*

Poison	Substance or article in which exempted
Phenylmercuric salts	Toilet, cosmetic and therapeutic preparations containing not more than 0.01% of phenylmercuric salts as a preservative; anti-septic dressings on toothbrushes; in textiles containing not more than 0.01% of phenylmercuric salts as a bacteriostat and fungicide.
Phosphoric Acid	Substances containing phosphoric acid, not being descaling preparations containing more than 50% w/w, of orthophosphoric acid.
Picric acid	Substances containing less than 5% of picric acid.
Podophyllum resin	Preparations containing not more than 1.5% w/w of podophyllum resin.
Potassium Hydroxide	Substances containing the equivalent of less than 17% of total caustic alkalinity expressed as KOH; accumulators; batteries.
Quinine; its salts	Preparations containing not more than 1% of quinine or its salts; soft drinks, wines or tonic wines; preparations containing not more than 15% of quinine or its salts for use in the manufacture of soft drinks, tonic wines or confectionery.
Sodium ethylmercurithiosalicylate	Therapeutic substances containing less than 1.0% of sodium ethylmercurithiosalicylate as a preservatives.

## SECOND SCHEDULE

GROUP II — *(continued)*

<b>Poison</b>	<b>Substance or article in which exempted</b>
Sodium fluoride	Substances containing less than 3% of sodium fluoride as a preservative; dentifrices containing not more than 0.3% of sodium fluoride; mouthwash tablets containing not more than 0.2% of sodium fluoride and liquid mouth washes containing not more than 5% thereof.
Sodium Hydroxide	Substances containing the equivalent of less than 12% of total caustic alkalinity expressed as Na OH.
Sodium Nitrite	Substances other than preparations containing more than 0.1% of sodium nitrite for the destruction of rats or mice.
Sodium siliconfluoride	Substances containing less than 3% as a preservative.
Sulphuric acid	Substances containing less than 9% w/w sulphuric acid (H <sub>2</sub> S <sub>04</sub> ); accumulators; batteries in which sulphuric acid is packed together with car batteries; fire extinguishers.

[Subsidiary]

**THIRD SCHEDULE**

(rule 14)

SUBSTANCES REQUIRED BY RULE 14 TO BE SOLD BY RETAIL ONLY UPON  
 PRESCRIPTION GIVEN BY REGISTERED MEDICAL PRACTITIONER,  
 DENTIST OR VETERINARY SURGEON

Acetanilide; alkyl acenilides  
 Acetazolamide  
 Acetohexamide  
 Acetorphine; its salts; its esters and ethers; their salts  
 Acetylcarbromal  
 Acetylcholine Chloride  
 Acetylcysteine  
 Acetyldigitoxin  
 Acetyldihydrocodeine; its salts  
 Adiphenine Hydrochloride  
 Alcuronium Chloride  
 Allopurinol  
 Allylisopropylacetylurea  
 Allylprodine; its salts  
 Alphacetylmethadol; its salts  
 Alphachlorose  
 Alphameprodine; its salts  
 Alphamethadol; its salts  
 Alphaprodine; its salts  
 Alprenolol; its salts  
 Amantadine Hydrochloride  
 Ambenonium Bromide  
 Ambuside  
 Ametazole Hydrochloride  
 Amidopyrine; its salts; amidopyrine sulphonates; their salts  
 p-Aminobenzenesulphonamide; its salts; derivatives; of p-aminobenzenesulphonamide  
     having any of the hydrogen atoms of the p-amino group or of the sulphonamide  
     group substituted by another radical; their salts  
 Amiloride Hydrochloride  
 Aminopterin Sodium  
 Aminorex; its salts  
 p-Aminosalicylic acid; its salts  
 Amitriptyline; its salts  
 Androgenic, oestrogenic and progestational substances, the following —  
     Benzoestrol  
     Derivatives of stilbene, dibenzyl or naphthalene with oestrogenic activity, their  
     esters  
     Steroid compounds with androgenic or oestrogenic or progestational activity; their  
     esters; except when contained in preparations for oral contraception

## THIRD SCHEDULE — (continued)

Anileridine; its salts

Antibiotics, the following, their salts; their esters, their salts —

Actinomycins

Amikacin Sulphate

Amphotericin

Amphotericins

Bacitracin

Bleomycine

Candididin

Capreomycin

Cephaloglycin

Cephaloridine

Cephalosporine, that is to say, the antimicrobial substances containing in their chemical structure a fused dihydrothiazine B-lactum nucleus

Chloramphenicol

Chortetracycline

Clindamycin

Cycloserine

Demethylchlortetracycline

Erythromycin

Flavomycin

Framycetin

Fumagillin

Fusidic Acid

Gentamicin

Gramicidins

Griseofulvin

Hachimycin

Kanamycin

Lincomycins, that is to say, the S-alkyl derivatives of 6, 8-dideoxy-6-trans- (4-alkyl-L-2-pyrrolidine carboxamido)-1-thio-D-erythro-oc-D-galacto-octo-pyranoside, and N-methyl-pyrrolidine analogues thereof

Methacycline

Minocycline

Mithramycin

Neomycin

Novobiocin

Nystatin

Oleandomycin

Oxytetracycline

Paromomycin

Penicillin; its salts and derivatives

Polymyxins

[Subsidiary]

## THIRD SCHEDULE — (continued)

Rifamycins, that is to say, a group of related antimicrobial microlactants, either produced by the growth of *strep-tomyces mediterranei* or by modification of such products, and containing the chemical structure of 11-acetoxy-7, 9, 15-trihydroxy-13-methoxy-2, 6, 8, 10, 12-pentamethyl-pentadeca 2, 4, 14-trienoic acid amide, attached by the nitrogen atom and by the oxygen atom in the 15-position respectively to the 7 and 2-positions of a 5, 6 9-trioxygenated 2, 4-dimethyl-1-oxonaphtho (2, 1-b) furan

Ristocetins

Spectinomycin

Spiramycin

Streptomycin and its derivatives

Tetracycline, that is to say, antimicrobial substances containing the chemical structure naphthacene-2-carboxymide, hydrogenated to any extent, and having each of the positions 1, 3, 10, 11 and 12 substituted by a hydroxyl or an oxo group

Thiamphenicol

Tobramycin

Tylosin

Tyrothricin

Vancomycin

Viomycin

Virginiamycin

Apiol

Aprotinin

L-Asparaginase

Atenolol

Azacylonol; its salts

Azapropazone

Azathioprine

Barbituric acid; its salts; derivatives of barbituric acid; their salts; compounds of barbituric acid; its salts; its derivatives; their salts; with any other substances

Beclamide

Bemegride

Benactyzine; its salts; its quaternary compounds

Benapryzine

Benserazide Hydrochloride

Benzbromarone

Benzethidine; its salts

Benzhexol; its salts

Benzilonium Bromide

Benzoctamine; its salts

Benztropine and its homologues; their salts

Benzylmorphine; its salts

Betacetylmethadol; its salts

Betachloralose

## THIRD SCHEDULE — (continued)

Betameprodine; its salts  
Betaprodine; its salts  
Bethanadine; its salts  
Bethahechol Chloride  
Bezitramide; its salts  
Biperiden; its salts  
Bretylium; its salts  
Bromocriptine Mesylate  
Bromvaletone  
Bufexamac  
Buformin; its salts  
Bufotenine; its salts; its esters and ethers; their salts  
Buphenine Hydrochloride  
Busulphan; its salts  
Butriptyline Hydrochloride  
Cannabinol and its tetrahydro derivatives, prepared wholly or partly by synthesis; their 3-alkyl derivatives; any ester or ether of any substance falling within this item  
Cannabis, (the whole plant, or part thereof, of Cannabis Sativa Linn); the resin of cannabis; extracts of cannabis, tinctures of cannabis; cannabin tannate  
Captodiamine; its salts  
Caramiphen; its salts  
Carbenoxolone; its salts  
Carbimazole  
Carbromal  
Carbutamide; its salts  
Carisoprodol  
Chloral; its addition and condensation products other than alphachloralose; their molecular compounds; except when contained, in the form of chloral hydrate, in preparations intended for external application only  
Chlorambucil  
Chloriazepoxide; its salts  
Chlormethiazole; its salts  
Chlorathiazine and other derivatives of benzo-1, 2, 4-thiadiazine-7-sulphonamide-1, 1-dioxide, whether hydrogenated or not  
Chlorphenoxamine; its salts  
Chlorphentermine; its salts  
Chlorpropamide; its salts  
Chlorprothixene and other derivatives of 9-methylenethiixanthene; their salts  
Chlorthalidone and other derivatives of o-chlorbenzene sulphonamide  
Chlorzoxazone  
Cimetidine  
Clofazimine  
Clofibrate  
Clomifene; its salts

[Subsidiary]

## THIRD SCHEDULE — (continued)

Clomipramine; its salts  
Clonidine; its salts  
Clonitazene  
Clorexolone  
Clorprenaline; its salts; when contained in aerosol dispensers  
Colchium, alkaloids of; their salts  
Corticotrophine, natural and synthetic  
Cortisone, hydrocortisone, prednisone; prednisolone, derivatives of these with hydroxyl, alkyl groups, or halogens as substituents; ethers and salts of such derivatives  
Curare  
4-Cyano-2-dimethylamino-4, 4-diphenyl-butane; its salts  
4-Cyano-1-methyl-4-phenylpiperidine; its salts  
Cyclarbamate  
Cyclophosphamide  
Cycrimine; its salts  
Cyproterone; its salts  
Cytarabine; its salts  
Bacarbazine  
Dantrolene Sodium  
Danazol  
Dapsone; its salts  
Daunorubicin; its salts  
Deanol; its salts  
Debrisoquine; its salts  
Demecarium bromide  
Deptropine Citrate  
Desferrioxamine Mesylate  
Desipramine; its salts; its esters and ethers; their salts  
Dexetimide  
Destromethorphan; its salts; except substances containing less than 1.5% of dextromethorphan  
Dextromoramide; its salts  
Diacetylmorphine; its salts  
Diamino-diphenyl sulphones; their salts; their derivatives  
Diampromide; its salts  
Diazepam and other compounds containing the chemical structure of dihydro-1 4-benzodiazepine substituted to any degree; their salts  
Diazoxide; its salts  
Dibenzepin; its salts  
Dicyclomine Hydrochloride  
NN-Diethyltryptamine (DET)  
Dihydrallazine; its salts  
Dihydrocodeine; its salts; its esters and ethers; their salts  
Dihydrocodeinone; its salts

## THIRD SCHEDULE — (continued)

Dihydromorphine; its salts; its esters and ethers; their salts  
Diloxanide Furoate  
Dimenoxadole; its salts  
Dimepheptanol; its salts; its esters and ethers; their salts  
Dimepropion  
Dimercaprol  
Dimethothiazine Mesylate  
2, 5-Dimethoxy-oc, 4-dimethylphenethy-lamine (DOM); its salts  
Dimethylthiambutene; its salts  
N.N.-Dimethyltryptamine (DMT); its salts  
Dimethyltubocurarine; its salts  
Dinitrocresols (DNOC): the compounds with a metal or base, except preparations for use in agriculture or horticulture  
Dinitronaphthols; dinitrophenols; dinitrothymols  
Dioxaphetyl butyrate; its salts  
Diphenoxylate; its salts  
Dipipanone; its salts  
Dipyridamole  
Disopyramide  
Dislfirm  
Disulphamide  
Dithienylallylamines; dithienylallylally-lamines; their salts  
Dopamine Hydrochloride  
Dothiepine; its salts  
Doxapram; its salts  
Doxepin; its salts  
Doxorubicin; its salts  
Drostanolone Propionate  
Dyflos  
Extylurea  
Edrophonium Chloride  
Emepromium Bromide  
Emylcamate  
Ephedrine; its optical isomers; their salts when contained in aerosol dispensers  
Ergot, alkaloid of; whether hydrogenated or not; their homologues; any salt of any substance falling within this item  
Estramustine Phosphate  
Etafedrine; its salts  
Ethacrynic acid; its salts  
Ethambutol; its salts  
Ethamivan  
Ethamsylate  
Ethchlorvynol  
Ethebenecid  
Ethinamate

[Subsidiary]

## THIRD SCHEDULE — (continued)

Ethoglucid  
Ethoheptazine  
Ethosuximide  
Ethylmethylthiambutene  
Ethylmorphine; its salts; its esters and ethers; their salts  
Ethylnoradrenaline; its salts; when contained in aerosol dispensers  
Etonitazine; its salts  
Etoxidine  
Fazadinium Bromide  
Fancamfamin; its salts  
Fenfluramine; its salts  
Fenoprofen  
Fenoterol  
Fentanyl  
Flavoxate  
Fluanisone  
Flucytosine  
Flufenamic acid; its salts; its esters; their salts  
Fluorouracil; its salts  
Flupenthixol Decanoate  
Fluprostenal  
Flurbiprofen  
Fluspirilene  
Frusemide  
Furaltadone  
Furazolidone  
Furethidine; its salts  
Gallamine; its salts; its quaternary compounds  
Glibenclamide; its salts  
Glibornuride; its salts  
Glipizide  
Glutethimide; its salts  
Glycopyrronium Bromide  
Glymidine  
Guanethidine; its salts  
Guanoclor; its salts  
Guanoxan; its salts  
Haloperidol and other 4-substituted derivatives of N-(3-p-fluorobenzoyl-propyl)  
piperidine  
Heparin  
Heptaminol Hydrochloride  
Hexachlorophene  
Hexamethonium; its salts  
Hexapropymate  
Hydrallazine; its salts

## THIRD SCHEDULE — (continued)

Hydrazines, benzylphenethyl or phenoxyethyl; their *o*-methyl derivatives; acyl derivatives of any of the foregoing substances comprised in this item; salts of any compounds comprised in this item

Hydrocodone; its salts

Hydromorphinol; its salts; its esters and ethers; their salts

Hydromorphone; its esters and ethers; their salts

Hydroxy-N, N-dimethyltryptamines; their esters or ethers; any substances falling within this item

Hydroxypethidine; its salts; its esters and ethers; their salts

Hydroxyurea

Hydroxyzine; its salts

Ibuprofen

Idoxuridine

Imipramine its salts

Indomethacin; its salts

Iprindole; its salts

Iproniazide; its salts

Isoaminile; its salts

Isocarboxazide; its salts

Isoetharine; its salts when contained in aerosols dispensers

Isomethadone (isoamidone); its salts

Isoniazid; its salts; its derivatives; their salts

Isoprenaline; its salts; when contained in aerosol dispensers

Isopropamide Iodide

Ketamine; its salts

Ketobemidone; its salts; its esters and ethers; their salts

Ketoprofen

Khellin

Labetolol Hydrochloride

Laetrile

Levodopa; its salts

Levomethorphan; its salts

Levomoramide; its salts

Levophenacilmorphan; its salts; its esters and ethers; their salts

Levorphanol; its salts; its esters and ethers; their salts

Lithium carbonate

Lofepamine

Loperamide; its salts

Lofepamie

Loperamide; its salts

Lysergamide

Lysergide and other N-alkyl derivatives of lysergamide; their salts, simple or complex; their quaternary compounds

Mannomustine Hydrochloride

Maprotiline; its salts

[Subsidiary]

## THIRD SCHEDULE — (continued)

Mazindol  
 Mebanazine; its salts  
 Mebeverine; its salts  
 Mebutamate  
 Mecamylamine; its salts  
 Meclofenoxate; its salts  
 Mefenamic acid; its salts; esters their salts  
 Mefruside  
 Melphalen  
 Mepenzolate Bromide  
 Mephenesin; its esters  
 Meproamate  
 Mercaptopurine; its salts; derivatives of mercaptopurine; their salts  
 Metaxalone  
 Metaraminol Tartrate  
 Metazocine; its salts; its esters and ethers; their salts  
 Metformin; its salts  
 Methadone (amidone); its salts  
 Methadyl acetate; its salts  
 Methaqualone; its salts  
 Methimazole  
 Methixene; its salts  
 Methocarbamol  
 Methotrexate  
 Methoxsalen  
 Methoxyphenamine; its salts; when contained in aerosol dispensers  
 Methsuximide  
 Methylaminoheptane; its salts; when contained in aerosol dispensers  
 Methyldopa  
 Methyldopate; its salts  
 2-Methyl-3-morpholine-1, 1-diphenyl-propane carboxylic acid; its salts; its esters; their salts  
 Methylphenynol; its esters and other derivatives  
 oc-Methylphenethylamine, B-methyl-phenethylamine and oc-ethylphenethy-lamine; any synthetic compound structurally derived from any of those substances by substitution in the aliphatic part of by ring closure therein (or by both such substitution and such closure) or by substitution in the aromatic ring (with or without substitution at the nitrogen atom) except ephedrine; its optical isomers and N-substituted derivatives, fenfluramine, hydroxyamphetamine, methoxyphenamine, phenylpropano-lamine, pholedrine and prenylamine; any salt of any substance falling within this item  
 Methylphenidate; its salts  
 Methprylone  
 Metoclopramide; its salts

## THIRD SCHEDULE — (continued)

Metomidate Hydrochloride  
Metopon; its salts; its esters and ethers; their salts  
Metoprolol Tartrate  
Metyrapone  
Mexiletine Hydrochloride  
Mitobronitol  
Mianeserin Hydrochloride  
Mitopodozide; its salts  
Molindone; its salts  
Morazone  
Morinamide; its salts  
Morpheridine; its salts  
Morphine; its salts; its esters and ethers; their salts except substances containing less than 0.2% of morphine calculated as anhydrous morphine  
Mustine and any other N-substituted derivatives of di-(2-chloroethyl) amine, their salts  
Myrophine; its salts  
Naftidrofuryl; its salts  
Nalidixic acid; its salts; its esters and salts of such esters  
Nialamide; its salts  
Nicocodine; its salts  
Nicodicodine; its salts  
Nicomorphine; its salts  
Nicoumalone  
Nifedipine  
Nifenazone  
Nikethamide  
Nitrofurantoin  
Nitrofurazone  
Nitromin; its salts  
Nitroprusside; its salts  
Noracymethadol; its salts  
Norcodeine; its salts; its esters and ethers; their salts  
Norlevorphanol; its salts; its esters and ethers; their salts  
Normethadone; its salts  
Normorphine; its salts; its esters and ethers  
Norpipanone  
Nortryptiline; its salts  
Opipramol; its salts  
Orciprenaline; its salts  
Orphenadrine; its salts  
Oxamniquine  
Oxedrine Tartrate  
Oxethazine; its salts  
Oxolinic Acid

[Subsidiary]

## THIRD SCHEDULE — (continued)

Oxprenolol; its salts  
 Oxycodone; its salts; its esters; their salts  
 Oxmorphone; its salts; its esters and ethers; their salts  
 Oxypertine; its salts  
 Oxyphenbutazone  
 Oxytoxins, natural and synthetic  
 Pancuronium; its salts  
 Papaverine; its salts  
 Paraldehyde  
 Paramethadione  
 Parathyroid Gland  
 Pargyline; its salts  
 Pemoline; its salts  
 Pempidine; its salts  
 Penicillamine; its salts  
 Pentazocine; its salts  
 Pentolinium; its salts  
 Perhexiline  
 Pethidine; its salts  
 Phenacaine; its salts  
 Phenacemide  
 Phenadoxone; its salts  
 Phenaglycodol  
 Phenampromide; its salts  
 Phenazocine; its salts; its esters and ethers; their salts  
 Phenbutrazate  
 Phencyclidine; its salts  
 Phenbutrazate  
 Phenelzine; its salts  
 Phenformin; its salts  
 Pheneturide  
 Phenindione  
 Phenmetrazine; its salts; its molecular compounds  
 Phenormorphan; its salts; its esters and ethers; their salts  
 Phenoperidine; its salts; its esters and ethers; their salts  
 Phenothiazines; derivatives of; their salts except dimethoxonate; its salts, promethazine;  
     its salts and its molecular compounds  
 Phenoxybenzamine Hydrochloride  
 Phenoxypropazine; its salts  
 Phenprocoumon  
 Phensuximide  
 Phentermine; its salts  
 2-Phenylcinchoninic acid; 2-salicycinchoninic acid; their salts; their esters  
 5-Phenylhydantoin; its alkyl and aryl derivatives; their salts  
 4-Phenylpiperidine-4-carboxylic acid ethyl ester; its salts

## THIRD SCHEDULE — (continued)

Pholcodine; its salts; its esters and ethers; their salts  
Physostigmine; its salts  
Piminodine; its salts  
Pimozide; its salts  
Pindolo  
Pipenzolate Bromide  
Piperidolate Hydrochloride  
Pipradrol; its salts; its esters and ethers  
Piritramide; its salts  
Pituitary gland, the active principles of, other than corticotrophins, oxytoxins and vasopressins  
Pizotifen  
Poldine Methylsulphate  
Polidexide  
Polymethylenebistrimethylammonium salts  
Practolol  
Prazosin  
Prenylamine Lactate  
Prilocaine Hydrochloride  
Primidone  
Probenecid  
Procainamide; its salts  
Procarbazine; its salts  
Prochlorperazine; its salts  
Procyclidine  
Procheptazine; its salts  
Prolintane Hydrochloride  
Promazine; its salts and its molecular compounds  
Promoxolan  
Pronethalol; its salts  
Propanidid  
Propantheline Bromide  
Properidine; its salts  
Propiram  
Propoxyphene; its salts  
Propanolol; its salts  
Propylhexedrine; its salts; except when contained in inhalers  
Propylthiouracil  
Prostaglandins  
Protamine Sulphate  
Prothionamide; its salts  
Prothipendyl; its salts  
Protriptyline; its salts  
Psilocin  
Psilocybine

[Subsidiary]

## THIRD SCHEDULE — (continued)

Pyrazinamide; its salts  
Pyridostigmine Bromide  
Quinethazone  
Quinidine; its salts  
Quinine; its salts; except in preparations containing less than 10% of quinine or its salts  
Racemethorphan; its salts  
Racemoramide; its salts  
Racemorphan; its salts; its esters and ethers; their salts  
Rauwolfia, alkaloids of; their salts; derivatives of the alkaloids of rauwolfia; their salts  
Razoxane  
Rimiteral Hydrobromide  
Ritodrine Hydrochloride  
Salbutamol; its salts  
Salmefamol  
Sodium cromoglycate  
Sodium valproate  
Solapsone  
Sotalol Hydrochloride  
Sprinolactone  
Styramate  
Sulindac  
Sulphinpyrazone  
Sulphonal; alkyl sulphonals  
Sulpiride  
Suprarenal gland medulla, the active principles of; their salts  
Suxamethonium; its salts  
Syrosingopine  
Tacrine Hydrochloride  
Tamofixen; its salts  
Terbutaline; its salts when contained in aerosol dispensers  
Terabenazine; its salts  
Thalidomide; its salts  
Thebacon; its salts; its esters; their salts  
Thiambutene  
Thiambutozine  
Thiocarlide; its salts  
Thioguanine  
Thiopentone; its salts  
Thiotepa; its salts  
Thiothixene; its salts  
Thiouracil; its alkyl derivatives  
Thymoxamine Hydrochloride  
Thyroid gland, the active principles of their salts  
Tilidene; its salts

THIRD SCHEDULE — *(continued)*

Timolol; its salts  
Tofenacin; its salts  
Tolazamide; its salts  
Tolbutamide; its salts  
Tranexamic Acid  
Tranyleupromine; its salts  
Tretamine; its salts  
Triamterine  
Triaziquone  
Tribromethyl alcohol  
2, 2, 2-Trichloroethyl alcohol, esters of, their salts  
Trimeperidine; its salts  
Trimetaphan; its salts  
Trimethoprim  
Trimipramine; its salts  
Troxidone  
Tubocurarine Chloride  
Tybamate  
Urethane  
Vasopressins, natural and synthetic  
Verapamil; its salts  
Vinblastine; its salts  
Vincristine; its salts  
Warfarine; its salts  
Yohimbine; its salts and quaternary compounds  
Zoxazolamine; its salts

## FOURTH SCHEDULE

(rule 19(2)(a))

STATEMENT OF PARTICULARS AS TO PROPORTION OF POISON IN  
CERTAIN CASES PERMITTED BY RULE 19(2)(a)

Name of Poison	Particulars
Alkaloids Aconite, alkaloids of	The proportion of any one alkaloid of aconite that the preparation would be calculated to contain on the assumption that all the alkaloids of aconite in the preparation were that alkaloid.
Belladonna, alkaloids of Calabar bean, alkaloids of Coca, alkaloids of Colchicum, alkaloids of Ephedrine, alkaloids of Ergot, alkaloids of Gelsemium, alkaloids of Jaborandi, alkaloids of Lobelia, alkaloids of Pomegranate, alkaloids of Quebracho, alkaloids of other than the alkaloids of red quebracho Sabadilla, alkaloids of Salonaceous alkaloids not otherwise included in the Poisons List Stavesacre, alkaloids of Veratrum, alkaloids of Yohimba, alkaloids of	The same as above, with the substitution for the reference to aconite of a reference to belladonna, calabar bean or such other of the said poisons, as the case may require.
Antimonial poisons	The proportion of antimony trioxide (Sb <sub>2</sub> O <sub>3</sub> ) or antimony pentoxide (Sb <sub>2</sub> O <sub>5</sub> ) that the preparation would be calculated to contain on the assumption that the antimony (Sb) in the poison had been wholly converted into antimony pentoxide, as the case may be

## FOURTH SCHEDULE — (continued)

Poison	Substance or article in which exempted
Arsenical poisons	The proportion of arsenic trioxide (As <sub>2</sub> O <sub>3</sub> ) or arsenic pentoxide (As <sub>2</sub> O <sub>5</sub> ) that the preparation would be calculated to contain on the assumption that the arsenic (As) in the poison had been wholly converted into arsenic trioxide or arsenic pentoxide, as the case may be.
Barium, salts of	The proportion of one particular barium salt which the preparation would be calculated to contain on the assumption that the barium (Ba) in the poison had been wholly converted into that salt.
Digitalis, glycosides of; other active principles of digitalis	The number of units of activity as defined in the British Pharmacopoeia contained in a specified quantity of the preparation.
Hydrocyanic acid, cyanides, other than ferrocyanides and ferricyanides	The proportion of hydrocyanic acid (HCN) that the preparation would be calculated to contain on the assumption that the cyanides in the poison had been wholly converted into hydrocyanic acid.
Insulin	The number of units of activity as defined in the British Pharmacopoeia contained in a specified quantity of the preparation.
Lead, compounds of, with acids from fixed oils	The proportion of lead oxide (PbO) that the preparation would be calculated to contain on the assumption that the lead in the poison had been wholly converted into lead oxide.
Mercury, organic compound of	The proportion of organically combined mercury (Hg) contained in the preparation.
Nux Vomica	The proportion of strychnine contained in the preparation.

[Subsidiary]

## FOURTH SCHEDULE — (continued)

Poison	Substance or article in which exempted
Opium	The proportion of morphine contained in the preparation.
Phenols	The proportion of phenols (added together) contained in the preparation.
Compounds of phenol with a metal	The proportion of phenols (added together) that the preparation would be calculated to contain on the assumption that the compounds of phenols with a metal had been wholly converted into the corresponding phenols.
Pituitary gland, the active principles of	<p data-bbox="635 773 739 797">Either —</p> <p data-bbox="635 826 1179 915">(a) the number of units activity as defined in the British Pharmacopoeia contained in a specified quantity of the preparation, or</p> <p data-bbox="635 951 1179 1075">(b) the proportion of pituitary gland, or of anterior or of posterior lobe of the gland, as the case may be, contained in the preparation; or</p> <p data-bbox="635 1112 1179 1294">(c) the amount of pituitary gland, or of anterior or of posterior lobe of gland, as the case may be, from which a specified quantity of the preparation was obtained, together with an indication whether the amount relates to fresh to dried gland substance.</p>
Potassium hydroxide	The proportion of potassium monoxide (K <sub>2</sub> O) which the preparation would be calculated to contain on the assumption that the potassium hydroxide in the preparation had been wholly converted into potassium monoxide.

## FOURTH SCHEDULE — (continued)

Poison	Substance or article in which exempted
Sodium hydroxide	The proportion of sodium monoxide (Ma 2 0) which the preparation would be calculated to contain on the assumption that the sodium hydroxide in the preparation had been wholly converted into sodium monoxide.
Strophanthus, glycosides of	The amount of Standard Tincture of Strophanthus as defined in the British Pharmacopoeia 1948 which possesses the same activity as a specified quantity of the preparation when assayed by the method described in the said Pharmacopoeia.
Suprarenal gland medulla, the active principles of; their salts	Either — <i>(a)</i> the proportion of suprarenal gland or of the medulla of the gland, as the case may be, contained in the preparation; or <i>(b)</i> the amount of thyroid gland from which a specified quantity of the preparation obtained, together with an indication whether the amount relates to fresh or to dried gland.

**FIFTH SCHEDULE**

(rule 6(2)(c))

INDICATION OF CHARACTER PRESCRIBED BY RULE 20  
FOR PURPOSE OF SECTION (6)(2)(c)

1. To be labeled with the words “Caution. It is dangerous to take this preparation except under medical supervision” —

Medicines made up ready for the internal treatment of human ailments and containing insulin.

2. To be labeled with the words “Caution. It is dangerous to exceed the stated dose” —

Medicines (other than medicines containing insulin and medicines mentioned in paragraph 9 of this Schedule) made up ready for the internal treatment of human ailments except in the case of a substance included in First Schedule.

3. To be labelled with the words “Poison. For animal treatment only” —

Medicines made up ready for the treatment of animals.

4. To be labelled with the words “Caution. This preparation may cause serious inflammation of the skin in certain persons and should only be used in accordance with expert advice” —

Preparations for the dyeing of hair containing phenylene diamines, tolyenediamines, or other alkylated-benzene diamines or their salts.

5. To be labelled with the words “Caution. This substance is caustic” —

Potassium hydroxide, sodium hydroxide and articles containing either of those substances.

6. To be labelled with words “Caution. This substance is poisonous. The inhalation of its vapour, mist, spray or dust may have harmful consequences. It may also be dangerous to let it come into contact with the skin or clothing” —

Dinitroresols (DNOC); their compounds with a metal or base; except preparations for the treatment of human ailments and except winter washes containing not more than the equivalent of 5% of dinitroresols

Dinosam; its compounds with a metal or base

Dinoseb, its compounds with a metal or base

Endosulfan

Endothal, its salts

Endrin

## FIFTH SCHEDULE — (continued)

Fluoroacetamide; fluoroacetanilide

Mercury, organic compounds of, in aerosols

Organo-tin compounds, the following —

Compounds of fentin

Phosphorous compounds, the following —

Any substance derived from the molecule  $H_3PO_4$  by substitution of any of the hydrogen or oxygen atoms and used as pesticides (insecticides, acaricides etc.) excepting

Bromphos

Bromphos-ethyl

2-chloro-1-(2, 4, 5-trichlorophenyl) vinyl dimethyl phosphate

Diazinon

Dimethoate

Dipterex

Fenclorphos

Fenitrothion

Fenthion

Malathion

0, 0, 0, 0'-tetramethyl 0, 0'-thiodi-p-phenylene phosphorothioate

Sodium 4-(dimethylamino) benzenedia-zosulphonate.

7. To be labelled with the words “Caution. This substance should be administered only under medical supervision. The vapour is dangerous” —

Medicines made up ready for the internal or external treatment of human ailments and containing dyflos.

8. To be labelled with the words “Caution. This substance is poisonous. Inhalation of powder is dangerous. It is also dangerous to let the substance come into contact with the skin or clothing” —

Monofluoroacetic acid; its salts.

9. To be labelled with words “Caution. This may cause drowsiness. If affected, do not drive or operate machinery” —

Anti-histamine substances, the following; their salts; their molecular compounds —

Antazoline

Bromodiphenhydramine

Buclizine

Carbinoxamine

Chlorcyclizine

Chlorpheniramine

Cinnarizine

[Subsidiary]

## FIFTH SCHEDULE — (continued)

Clemizole  
 Cyclizine  
 Cyroheptadine  
 3-Di-n-butylaminomethyl 4, 5, 6-trihydroxyphthalide  
 Dimethyprindene  
 Diphenhydramine  
 Diphenylpyraline  
 Doxylamine  
 Isothipendyl  
 Mebhydroline  
 Meclastine  
 Meclozine  
 Phenindamine  
 Pheniramine  
 Phenyltoloxamine  
 Promethazine  
 Pyrrobutamine  
 Thenalidine  
 Tolpropamine  
 Triprolidine  
 Substances being tetra-N-substituted derivatives ethylenediamine or propylenediamine.

10. To be labelled with the words “Caution. Ingesting may be harmful. If this preparation is used on the hands, they should be thoroughly washed before handling food. Preparations for tropical application containing menthanelinium or propantheline bromide”.

11. To be labelled with the words “Caution. Do not inhale vapour or allow contact with skin, eyes or clothing” —

Methyl bromide.

## SIXTH SCHEDULE

(rule 26(1))

## SUBSTANCES TO WHICH RULE 26(1) (TRANSPORT) APPLIES

Aldicarb  
 Allethrin  
 Amitroz  
 Arsenical Poisons  
 Barium, salts of  
 Biocresmethrin  
 Bromopropylate  
 Chlorinated hydrocarbon, the following —  
 Aldrin, enzene hydrochloride (BHC), bromocyclen, camphechlor, captafol, captan, chlorbenside, chlorbicyclen, chlordane, chlordecone, chlordimeform, chlorfenethol, chlorfensen, chlorfensulphide, chlorobenzilate, chloromebuform, chloropropylate, dicophane (DDT), pp'-DDT, dicofol, dieldrin, dienochlor, diflubenzuron, endosulfan, endrin, fenazaflor, fenson, fluorbenzide, folpet, gamma benzene hydrochloride (Gamma-BHC) (HCH), KEOD (1, 2, 3, 4, 10, 10-hexachloro-6, 7-epoxy-1, 4, 4a, 5, 6, 7, 8, 8a-octa-hyro-1, 4(exo) 5, 8(endo)- dimethanon-aphthalene), HHDN (1, 2, 3, 4, 10, 10-hexachloro-1, 4, 4a, 5, 8, 8a hexahydro-1, 4 (exo): 5, 8 ((endo)-dimethanonaphthalene), heptachlor, isobenzan, isodrin, kelevan, methoxychlor (1, 1, 1-trichloro-2, 2-di-(p-methoxyphenyl) ethane)), tetrachloridp-henylethane (TDE: 1, 1-dichloro-2, 2-bis (p-chlorophenyl) ethane)), tetradifon, tetrasul, toxaphene, allied chlorinated hydrocarbon compounds used as pesticides (insecticides, acaricides etc.)  
 Chlorinated phenols, their salts  
 Chlormequat  
 Cycloheximide  
 Cyhexatin  
 Decarhafuran  
 Dimethrin  
 Dimetilan  
 Dinitrocresols, (DNOC), their compounds with a metal or a base, when contained in preparations for use in agriculture or horticulture  
 Dinosam, its compounds with a metal or a base, when contained in preparations for use in agriculture or horticulture  
 Dinoseb, its compounds with a metal or a base, when contained in preparation for use in agriculture or horticulture  
 Dioxcarb  
 Diphenyl  
 Diquat; its salts  
 Drazoxolon; its salts  
 Endosulfan  
 Endothal; its salts  
 Endrin

[Subsidiary]

## SIXTH SCHEDULE — (continued)

Ethoquin  
 Fluoroacetamide; fluorocetanilide  
 Fluenetil  
 Formetanate  
 Hydrocyanic acid; cyanides other than ferrocyanides and ferricyanides, except preparations containing less than the equivalent of 0.1%, weight in weight, of hydrocyanic acid (HCN)  
 Methomyl  
 Monofluoroacetic acid; its salts  
 Nicotine; except in preparation containing less than 4% of nicotine  
 Organo-tin compounds, the following —  
     Compounds of fentin  
 Paraquat; its salts.

## SEVENTH SCHEDULE

(rule 30(1))

## SUBSTANCES TO WHICH RULE 30(1) (COLOURING) APPLIES

Drazoxolon; its salts  
 Flourcoacetamide; flouroacetanilide  
 Monofluoroacetic acid; its salts  
 Organo-tin compounds, the following —  
     Compounds of fentin  
 Phosphorus compounds, the following —  
 Any substance derived from the molecule H<sub>3</sub>P<sub>0</sub>4 by substitution of any of the hydrogen or oxygen atoms and used as pesticides (insecticides, aearieides etc) excepting —  
     Bromophos, bromophos-ethyl, 2-chloro-1 (2, 4, 5-trichlorophenyl) vinyl dimethyl phosphate, diazinon, dimethoate, dipterex, fenclorphos, fenitrothion, fenthion, malathion, 0, 0, 0' 0'-tetramethyl 0, 0'-thiodi-p-phenylene phosphorothioate.

**EIGHTH SCHEDULE**

(rule 3(1))

FORM A

Poisons Act (Chapter 114)

**LICENCE TO IMPORT AND STORE POISONS**

In exercise of the powers vested in me by the above Act I hereby authorise  
..... whose business is at .....

.....  
to import poisons from the date hereof until the 31st December, 20 .....

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and  
of any rules made thereunder and to the following conditions —

.....  
.....  
.....  
.....  
.....  
.....

Dated at ..... this ..... day  
of ..... 20 .....

.....  
Licencing Officer

Register No. ....

[Subsidiary]

EIGHTH SCHEDULE — (continued)

(rule 3(2))

FORM B

Poisons Act (Chapter 114)

LICENCE TO DEAL GENERALLY IN POISONS

BY WHOLESALE AND RETAIL

Licence is hereby granted to .....  
of .....  
carrying on business at .....  
to deal generally in poisons by wholesale and by retail at his said business subject to the provisions of the Poisons Act (Chapter 114) and of any rules made thereunder and subject to the following special conditions, viz —

.....  
.....  
.....

The licence takes effect from the .....  
day of ..... 20 ..... and expires on the 31st December  
of that year.

Dated at ..... this ..... day  
of ..... 20 .....

.....  
Licensing Officer

Register No. ....

EIGHTH SCHEDULE — (continued)

(rule 3(3))

FORM C

Poisons Act (Chapter 114)

LICENCE TO KEEP AND SELL POISONS BY WHOLESALE

Licence is hereby granted to .....  
of .....  
carrying on business at .....  
to keep and sell by wholesale at his said business premises the poisons hereunder  
specified —

.....  
.....  
.....  
.....

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and  
of any rules made thereunder and subject to the following conditions —

.....  
.....  
.....

The licence takes effect from the .....  
day of ..... 20 ..... and expires on the 31st  
December of that year.

Dated at ..... this ..... day  
of ..... 20 .....

.....  
Licensing Officer

Register No. ....

[Subsidiary]

EIGHTH SCHEDULE — (continued)

(rule 3(4))

FORM D

Poisons Act (Chapter 114)

LICENCE TO KEEP AND SELL POISONS BY RETAIL

Licence is hereby granted to .....  
of .....  
carrying on business at .....  
to keep and sell by wholesale at his said business premises the poisons hereunder  
specified —

.....  
.....  
.....  
.....

This licence is issued subject to the provisions of the Poisons Act (Chapter 114) and  
of any rules made thereunder and subject to the following conditions —

.....  
.....  
.....

The licence takes effect from the .....  
day of ..... 20 ..... and expires on the 31st December of  
that year.

Dated at ..... this ..... day  
of ..... 20 .....

.....  
Licensing Officer

Register No. ....

EIGHTH SCHEDULE — (continued)

(rule 4)

FORM E

Poisons Act (Chapter 114)

SALE OF POISONS REGISTER

Date of Sale .....

Name of purchaser .....

Address of purchaser .....

Name of person introducing purchaser .....

Address of person introducing purchaser .....

.....

Name and quantity of poison sold .....

.....

.....

.....

Purpose for which the poison is required by the purchaser .....

.....

.....

Signature of purchaser .....

Signature of person introducing purchaser .....

**NINTH SCHEDULE**

(rule 7)

**FEES**

The fee for any licence issued under the Act shall be \$15:

Provided that registered pharmacists shall be exempted from the payment of any fee for a licence issued under the Act or these Rules and that a person who requires more than one licence issued under the Act or these Rules, for the purpose of his trade or business, shall be required to pay a fee of \$25 only.
